FRUITS AND VEGETABLES FOR HEALTH AND LONG LIFE

Pranab Kumar Ghosh, A.S. Rajput and Ramesh Chandra Parida

Malnutrition has emerged as one of the most serious problems for mankind today. Most people are deficient in the frontline nutrients that are provided by the various essential vitamins and minerals. This is because a large number of people do not include the right quantities of various vegetables and fruits in their daily meals. The current year (2021) has been declared by the United Nations as the International Year of Fruits and Vegetables (IFYF) to generate awareness about the same. This occasion should be utilized by the agriculture and food scientists to create awareness about the nutritious value of various fruits and vegetables and which ones must people eat to meet their nutritional requirements properly. They should be made aware that the costly and tasty ones are not necessarily more nutritious and that nature provides the right type of food in a region that is suitable to meet the nutritional demands of the locals. So, they must choose those and need not opt for exotic ones. For example: ‘An apple a day keeps the doctor away’ is a common saying. No doubt, apples are healthy, but Quava, available almost all over our country, is nutritionally far superior to apples. Similarly, Ber gives 20 times more vitamin C than orange juice in equivalent quantities. Root and tuber vegetable crops can easily substitute for cereals in view of their high carbohydrate and calorie supply. 100 grams each of cassava and rice (dry weight basis) releases 386 and 397 calories of energy. The vitamin A quantity in mango is equal to that of butter. West Indian cherry has an exceptionally high content of ascorbic acid-1300 mg/100g. High carotenoid carrots (one or two in a week) are enough to compensate for our vitamin requirements. Amla contains 20 times as much vitamin C as the orange juice.

The World Health Organisation (WHO) recommends consuming at least 400 grams of fruits and vegetables each day or five servings of 80 grams each are beneficial for human beings for their health and nutrition. In 2017, some 3.9 million deaths worldwide were attributed to not eating enough fruits and vegetables (WHO, 2019). Insufficient intake of fruits and vegetables is estimated to cause around 14% of deaths from gastrointestinal cancer worldwide; about 11% of those due to ischemic heart disease and about 9% of those caused by stroke. Therefore, it is justified for the United Nations to declare 2021 as the International Year of Fruits and Vegetables (IFYF) with the aim to raise the awareness of the nutritional and health benefits of consuming more fruits and vegetables as a part of a diversified, balanced and healthy diet and lifestyle as well as to direct policy makers to give attention for Continued on page 2

CAREER AS WASTE MANAGEMENT PROFESSIONAL

HaryanaJobs.in

Nidhi Prasad

There are few things contain in life - one is death, second is change and the other is waste. No one can stop these things from happening in our lives. But with better management we can prepare ourselves.

What is WASTE?

Any material which is not needed by the owner, producer or processor is waste. Generally, waste is defined as at the end of the product life cycle. Most businesses define waste as “anything that does not create value”. In a common man's eye anything that is unwanted or not useful is garbage or waste.

This term generally relates to all kinds of solid or liquid waste generated at the time of extraction of raw materials, processing of raw materials into final products and from other human activities. This practice is intended to decrease the adverse effects of harmful waste on the health of human beings as well as the environment.

Waste management is critical to human development and health outcomes, especially during the COVID-19 pandemic. The hit of the COVID-19 pandemic has increased the production of waste and so the challenges around waste management, especially medical waste and non-medical household waste have increased. The lockdowns, stay-at-home policies, have increased the consumption and production of products such as gloves, masks, sanitizers, thermometers, toilet paper, cleaning products, and food items. Every household is producing more waste than ever before. The increased generation of plastic waste can be attributed to online delivery, panic buying, stock piling, and PPE disposal.

At the same time, there are factors that are discouraging the plastic recycling sector such as the slump in oil prices, transport restrictions, and staff shortage due to pandemic.

Suddenly the country’s waste management infrastructure is unduly burdened and is cracking under pressure. There are multiple challenges being faced by institutions, hospitals, and care centres in the light of COVID.

- Are our citizens aware on managing household medical waste in this COVID-19 situation?
- Are cities ready with their waste management plans?
- Are biomedical waste management firms ready to handle the extremely hazardous, heaps of biomedical waste our country is going to generate?

Inadequate waste management arrangements are not just throbbing to the environment at large, but also can catalyst Continued on page 39
FRUITS AND VEGETABLES FOR HEALTH AND LONG LIFE

Reducing loss and waste of those highly perishable items.

Fruits and vegetables are the edible parts of plants (i.e. seeds, flowers, fleshy, stems, shoots and roots), either cultivated or harvested wild, in their raw state or in a minimally processed form. These are a vital part of cuisines around the world.

Benefits of eating fruits and vegetables

1. Health benefits

Fruits and vegetables have multiple health benefits. They strengthen the immune system, combat malnutrition and help prevent many diseases (Table 1). Some reports about recent experiments on health benefits of fruits and vegetables are mentioned below:

- Children's growth and development: Fruits and vegetables are rich in vitamin A, calcium, iron, and folate which can promote good health, strengthen a child's immune system and help to protect against diseases. Parents around the world should try to persuade their children to eat the green/fruit on their snacks rather than junk food. Fruits and vegetables help children's growth; support body functions and physical, mental and social wellbeing at all ages.

- Longer life: People who eat more fruits and vegetables live longer than those who do not, according to a study conducted in 10 European countries.

- Better mental health: Eating 7-8 servings a day (more than the recommended minimum of 5 servings) is linked to lower risk of depression and anxiety.

- Healthy heart: Fibre and antioxidants in fruits and vegetables can help prevent cardiovascular disease.

- Lower cancer risk: In 128 (out of 156 dietary studies) cases, consuming fruits and vegetables were found to lower the risk of lung, colon, breast, cervix, oesophagus, oral cavity, stomach, bladder, pancreas and ovarian cancer.

- Lower obesity risk: A number of studies have observed a lower risk of adiposity and obesity in certain groups who consume fruits and vegetables.

- Lower diabetes risk: A systematic review and meta-analysis found higher green leafy vegetables and higher fruit intake were associated with significant reduction in type 2 diabetes risk.

- Better gut health: A diet rich in fruits, vegetables and other high fibre plant-based foods improve gut bacteria diversity and tends to increase bacteria associated with anti-inflammatory compounds which is linked with improved metabolism. Higher consumption of fruits and vegetables has also been shown to decrease the prevalence of diverticulosis as well as other digestive problems such as gas, constipation and bloating.

- Improved immunity: Adequate intake of fruits and vegetables may reduce the severity of some infectious diseases. Though they will not protect us against a virus e.g., COVID-19, recovery from infectious disease is better when consuming fruits and vegetables regularly.

Production scenario of fruits and vegetables

In 2018, the world produced a total of 868 million tonnes of fruits and 1089 million tonnes of vegetables. The main fruits in order of importance were banana, citrus, melons, apple and grapes; similarly, the main vegetables were tomato, onion, garlic, cabbage, cauliflower, broccoli and cucumber. East Asia followed by South Asia is the world's main producing region of both fruits and vegetables. The world is producing more fruit and vegetables - but still not enough. In 2020, world production totalled just 306 grams per person per day, whereas this has been raised to 390 grams by 2017 (FAO 2020).

It is a matter of pride that India is the second largest producer of fruits as well as vegetables in the world. The country ranks at first position in the production of banana, mango, lime and lemon, papaya and okra. According to the Horticulture Statistics at a Glance-2018 by the Government of India, India produced 97.35 million tonnes of fruits and 184.40 million tonnes of vegetables.

Fruits and vegetables are typically more price and not staple crops for a given area of land. They offer opportunities for small farmers to take advantage of rising demand and to earn more money by producing and marketing fruits and vegetables. Women, in particular, can benefit as they are frequently engaged in fruits and vegetables production and marketing. The COVID-19 pandemic has highlighted the importance of home gardens, kitchen gardens, nutrition gardens and even rooftop gardens.
# NATIONAL FERTILIZERS LIMITED

(A Govt. of India undertaking)

</tbody>
</table>

**Maximum age limit**

(i) Principal REO 50 years i.e. born or on or before 01-07-1971
(ii) REO 45 years i.e. born or on or before 01-07-1976

Closing date for online application is 30-06-2021.

Desirable:

(i) The prescribed maximum age should be determined as on 30-06-2021 which shall be the closing date of application.

The minimum qualifications, desirable qualifications, experience for the above positions, as per Serial Number with the Post, Department, Cadre, Number of Posts, Pay Scale & Level (as per 7th CPC) are given below:

**Desirable**

The person should have experience in the area relevant to sensors development— including flexible printed sensors, electrochemical and microfluidic-based sensors. Experience in development of an R&D team in the area of flexible printed sensors development including sensitive element fabrication and characterisation, industry project management, classroom management and in-depth expertise in handling-edge flexible printed sensors fabrication and characterisation facilities.

Desirable:

Minimum M.Tech. / M.S. in Electrical Engineering/ Electronics Engineering plus 13 years relevant experience OR Ph.D. in Electrical Engineering/ Electronics Engineering plus 10 years relevant experience.

Desirable:

Minimum M.Tech. / M.S. in Electrical Engineering/ Electronics Engineering from reputed institution/ college. The relevant bachelor's and masters degree should also be in the relevant area with marks above 60% (or above 6.5 grade point).

Desirable:

Minimum M.Tech. or M.Sc. in Electrical Engineering/ Materials Science and Engineering with 3 years relevant experience OR Ph.D. in Chemistry/ Physical Chemistry/ Chemical Engineering/ Electrical Engineering/ Materials Science and Engineering with 3 years relevant experience OR Ph.D. in Chemistry/ Physical Chemistry/ Chemical Engineering/ Electrical Engineering/ Materials Science and Engineering with 3 years relevant experience.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 3 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 3 years relevant experience OR Ph.D. in Materials Science and Engineering/ Metallurgical Engineering.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 5 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 3 years relevant experience OR Ph.D. in Materials Science and Engineering/ Metallurgical Engineering.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 3 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 2 years relevant experience.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 5 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 3 years relevant experience.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 3 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 2 years relevant experience.

Desirable:

Minimum B.Tech. in Materials Science and Engineering/Metallurgical Engineering with 5 years relevant experience OR M.Tech/ M.Sc. in Materials Science and Engineering/ Metallurgical Engineering with 3 years relevant experience.

ELIGIBILITY CRITERIA:

1. REGISTRAR
   METHOD OF RECRUITMENT: Deputation (including Short Term Contract) for a period of 5 years or till attaining the age of 62 years whichever is earlier, or as fixed by Govt. of India by orders issued in this regard from time to time.

   ESSENTIAL CRITERIA: Mesters' degree with at least 55% Marks or its equivalent grade 'B' in the UGC 7 point scale from a recognized University/Institute.

   Experience:
   i. Holding analogous post
   ii. At least 15 years' experience as Assistant Professor in the AGP of ₹70000.00 (i.e. Level - 11) and above or with 8 years of service in the AGP of ₹60000.00 (i.e. Level - 12) and above including as Associate Professor along with 3 years' experience in educational administration or
   iii. Comparable experience in research establishment and for other institutions of higher education, or
   iv. 15 years of administrative experience, of which 8 years shall be as Deputy Registrar or an equivalent post in the GP of ₹7,6000.00 (i.e. Level - 12) or above.

   DESIRABLE:
   - Qualification in area of Management/Engineering/Law
   - Experience in computerized administration/legal/financial/establishment matters.

   AGE LIMIT: 56 years

2. DEPUTY REGISTRAR
   METHOD OF RECRUITMENT: Direct

   ESSENTIAL CRITERIA: Master's degree in any discipline with at least 55% marks or its equivalent Grade in the CGPA / UGC point scale with good academic record from a recognized University/Institute.

   Experience:
   i. 9 years' experience of Assistant Professor in the AGP of ₹60000/- and above with 3 years of experience in educational administration, or
   ii. Comparable experience in research establishment and/or other institutions of higher education, or
   iii. 5 years of administrative experience as Assistant Registrar in the Grade Pay of INR 5,4000.00 or equivalent post.

   DESIRABLE:
   - Qualification in area of Management/Engineering/Law
   - Experience of working in E-Office system
   - A Chartered or Cost Accountant degree or diploma for the post of Deputy Registrar (Finance & Accounts) or Deputy Registrar (Internal Audit).

   AGE: Not exceeding 50 years

3. ASSISTANT REGISTRAR
   METHOD OF RECRUITMENT: Direct

   ESSENTIAL CRITERIA: Master's degree in any discipline with at least 55% marks or its equivalent Grade in the CGPA / UGC point scale with good academic record from a recognized University/Institute.

   OR
   Employees serving as Superintendent (SG-I) / Private Secretary (NFG) in PB-2, GP of ₹4900/- with at least two years regular service or Superintendent (SG-II) / Private Secretary (NFG) in PB-2 GP of ₹5400/- with at least five years regular service with Master's degree

   DESIRABLE:
   - Qualification in area of Management/Engineering/Law
   - Experience of working in E-Office system
   - A Chartered or Cost Accountant degree or diploma for the post of Assistant Registrar (Finance & Accounts)

   AGE: Not exceeding 35 years

4. LIBRARIAN
   METHOD OF RECRUITMENT: Direct

   ESSENTIAL CRITERIA: Master's degree in Library Science/Information Science/Documentation with CGPA of 6.5 in 10 points scale or at least 60% marks or its equivalent grade of 'B' in the UGC seven point scale and a consistently good academic record set out in these Regulations.

   Experience:
   - Holding analogous post
   - At least 10 years' experience as a Deputy Librarian in the library of technical University, educational institute of national importance, or any other large technical library at least 3 years being spent on a post in PB-4 with GP of ₹8,7000.00 (i.e. Level 13) or an equivalent post
   - Experience (supported with evidence) of innovative Library service and commitment for computerization of library

   DESIRABLE: Higher degree (Ph. D. or equivalent) in a relevant Discipline directly relevant to Library Science/Information Science/Documentation

   AGE LIMIT: 56 years

5. MEDICAL OFFICER
   METHOD OF RECRUITMENT: Direct

   ESSENTIAL CRITERIA: MBBS Degree or equivalent qualification included in any one of the Schedules to the Indian Medical Council Act, 1956 (102 of 1956) and must be registered in a State Medical Register or Indian Medical Register

   DESIRABLE: Post Graduate Qualification, preferably MD in General Medicine, or equivalent qualification included in any one of the Schedules to the Indian Medical Council Act, 1956 (102 of 1956) and must be registered in a State Medical Register or Indian Medical Register

   AGE: Not exceeding 35 years

6. HINDI OFFICER
   METHOD OF RECRUITMENT: Direct

   ESSENTIAL CRITERIA:
   i. Master's degree of a recognized University in Hindi with English as a compulsory or elective subject or as the medium of examination at the degree level;
   OR
   Master's degree of a recognized University in Hindi with English as a compulsory or elective subject or as the medium of examination at the degree level;
   OR
   Master's degree of a recognized University in any subject other than Hindi or English, with Hindi medium and English as a compulsory or elective subject or as the medium of examination at the degree level;
   OR
   Master's degree of a recognized University in any subject other than Hindi or English, with English medium and Hindi as a compulsory or elective subject or as the medium of examination at the degree level;
   OR
   Master's degree of a recognized University in any subject other than Hindi or English, with either of the two as the medium of examination and the other as a compulsory or elective subject at the degree level.

**NOTE:**

- (i) Applicants of the post codes 49/21 to 57/21 must have to qualify in Section A & B separately as per their category (UR/OBC/SC/ST/PwD/Ex-Servicemen) minimum qualifying marks. However, final merit shall be prepared on the basis of aggregate marks of both the section A & B (Please refer to notice dated 28/07/2017/Annexure-V). (ii) Negative Marking will be applicable and deduction of 0.25 marks will be made for each wrong MCQ answer. (iii) The Board reserves the right to prescribe a minimum cut off mark for any post as per availability of candidates. (iv) In Two Tier examinations, Tier I exam to be used for short listing only. Selection will be made on the basis of marks obtained in Tier II Examination. (v) The Board, at its discretion, may dispense with the Tier-I exam and conduct only Tier-II examination in case the number of eligible candidates/applicants for the post to which the examination schemes are Two Tier is lesser in number (i.e. not very high). (vi) Skill test/ Endurance test will be taken as per requirement of job. (vii) The minimum qualifying marks for one Tier/Two Tier written examination (Objective/Descriptive Type) is as per notice dated 26/04/2013 given at Annexure-II.

**Disclaimer:** The vacancy notice is based on the requisitions received from the indenting departments. The essential qualifications have been given as prescribed in the RFRs. In case of any typographical error, the recruitment will be strictly as per the RFRs only.
THE INDIAN NAVY

INVITES APPLICATIONS FROM UNMARRIED MEN FOR SHORT SERVICE COMMISSION OFFICERS FOR EXTENDED NAVAL ORIENTATION COURSE – JAN 2022 [ST 22] COURSE

DATE OF OPENING – 12 Jun 2021
LAST DATE FOR ONLINE APPLICATION – 26 Jun 2021

1. Applications are invited from unmarried eligible male candidates for grant of Short Service Commission (SSC) for Extended Naval Orientation course commencing Jan 2022 onwards at Indian Naval Academy (INA) Ezhimala, Kerala for under mentioned entries in the Indian Navy. Candidates must fulfill conditions of nationality as laid down by the Government of India. Selected candidates will undergo training with one of the following two distinct courses:
   (a) General Service (Executive) [GS (X)]
   (b) Hydrography

Eligibility Conditions

2. Educational Qualifications:

<table>
<thead>

</tr>
</tbody>
</table>

Note (1)

(b) Due to COVID-19 pandemic, an exception is being made in the public interest wherein no INET (O) entrance examination for the ST – 22 course is being held for shortlisting candidate for SSC. The final merit list for induction will be prepared based only on SSB marks.
(iii) These vacancies are tentative and may be changed depending on availability of training slots.
(iv) **Mercant Navy Personnel**: Candidates having Government of India, Ministry of Shipping & Transport Certificate of Competency (Foreign going) either as a Second Mate, Mate or Master and born between 02 Jan 1992 and 01 Jul 2002 (both dates inclusive) can apply for Executive Branch entry (General Service) as per stipulations stated at Para 2(a) above.
(v) NCC Candidates: NCC ‘C’ certificate holders will be given relaxation in cut off marks towards shortlisting for SSC subject to the following conditions:
   (a) Having NCC ‘C’; certificate of NavaInf/Amy/Arm Wing with minimum ‘B’ Grade.
   (b) Not served less than three academic years in the Senior Division, NavaInf/Amy/Arm Wing of the NCC.
   (c) ‘C’ certificate should not be dated prior to 30 Jun 18.
   (d) The final selection will be subject to verification of the certificate by DGNNCC/Concerned NCC unit for its validity. Candidate of individual will be cancelled at any stage of selection/training/post commissioning, in case of false declaration, misinformation, concealing of the information.

3. Who Can Apply

(a) Candidates who have graduated/post-graduated with minimum 60% marks in aggregate or equivalent CGPA or are in the final year from a university incorporated by an Act of Central or State legislature in India or other educational institutions established by an Act of Parliament or declared to be deemed as Universities/International Universities under UGC, Act 1956, IIT Act, 1961, AICTE Act, 1987, NTSE Act, 2007, IIT Act, 2014, etc.
(b) Obtained a degree in Engineering with 60% marks or equivalent CGPA/System from such foreign universities/collage/institution recognized by the Government of India for the purpose of acquiring Engineering Degree/Certificate/Qualification from Association of Indian Universities established under AUI, Act 1973, can apply. The candidate will, however, be required to fulfil the educational qualification stipulated above before joining INA. The candidate failing to meet stipulated educational criteria will not be permitted to join INA, Ezhimala.

Note (2) - (i) Candidates are advised to ascertain their eligibility for branch in respect to applicable medical standards, prior to submission of application. Only one application can be filled by a candidate. (ii) Candidates must indicate their preference for other entry also, if they wish to be considered for that entry. A candidate will not be considered for the entry that they have not selected.

5. Tenure of Commission. Selected candidates will be granted Short Service Commission initially for 10 years extendable by maximum of 04 years in 02 terms (02 years + 02 years), subject to service requirement, performance, medical eligibility and willingness of candidates.

6. Selection Procedure. The selection procedure is as follows:

(a) Shortlisting of application will be based on preference of entries and marks obtained by the candidates in the qualifying degree in 6th semester.
(b) Candidates having Naval 'C' certificate issued by the National Cadet Corps will be provided relaxation of 5% in cut off marks for SSB shortlisting. However, at the time of extending the relaxation, the mandatory educational qualification of 60% marks in qualifying degree will be required at the time of shortlisting of candidates and at subsequent stage of selection.
(c) No communication will be entertained in this regard.
(d) SSB interviews will be tentatively scheduled from Jul 21 onwards at Bangalore/ Bhopal/Visakhapatnam/ Kolkata. Change of SSB Centre for interview is not permissible under any circumstances.
(e) Shortlisted candidates will be informed about their shortlisting for SSB interview through e-mail or SMS (provided by candidates in their application form). Candidates are advised not to change their e-mail/mobile number till selection process is over.
(f) SSB Procedure. For details regarding SSB procedure visit www.joinindiannavy.gov.in

(g) Medical. SSC recommended candidates are required to undergo medical examination as applicable to their entry. Change of medical/centre in all cases is not permissible under any circumstances.
(h) Merit List. Merit list will be compiled on the basis of SSB. Candidates recommended by SSB and declared medically fit will be appointed for training on the basis of entry-wise merit list and the number of vacancies in the respective entry.

Note (3)

(i) Any correspondence regarding change of SSB dates be addressed to the call up officer of the concerned SSB on receipt of call up letter. Candidates are required to bring the call up letter along with a copy of the intimation from IHQ MoD (N) at SNSemail (provided by candidate in their application).
(ii) No compensation is admissible in case of any injury sustained as a result of tests during SSB interviews.
(iii) AC 3 tier rail fare is admissible for the SSB interview, if appearing for the first time for particular type of commission. Candidates are required to bring photograph copy of the first page of pass book or cheque leaf where the name, AC No. & IFSC details are mentioned, while appearing for SSB.

7. Training

(a) Candidates except Ex-Merchant Navy will be inducted in the rank of Sub Lieutenant. Ex-Merchant Navy candidates having Government of India, Ministry of Shipping & Transport Certificate of Competency (Foreign going) either as a Second Mate, Mate or Master will be inducted as Acting Lieutenant.
(b) Officers will undergo 44 weeks training at Naval Academy Ezhimala followed by professional training at Naval Ships and training establishments as per need regulation.

Note (4)

(i) Probation period for Extended (NOC) is two years. The probation period will commence from the date of grant of the rank of Sub L.t (Ag) in case of Ex-Merchant Navy candidates and will terminate after two years or on completion of initial training (whichever is later). During probation, the Officers are liable to be discharged in case of unsatisfactory performance at any stage.
(ii) Only unmarried candidates are eligible for training. Any candidate who is found to be married or married while under training will be discharged from service and shall be liable to refund full pay & allowances drawn by him and other expenditure incurred on the candidate by the Government.
(iii) If the officer voluntarily withdraws from initial training or resigns during the probationary period, he/she shall be required to refund the cost of training in whole or in part, as may be determined by Govt. & all money received by him as pay & allowances from the Govt. together with the interest on the said money calculated at the rate in force for Govt. Loans.

How to Apply

6. Candidates are to register and fill application on Indian Navy website www.joinindiannavy.gov.in w.e.f 11 Jun 21. To save time during the application submission window, candidates can fill in their details and up-loads documents in advance.

9. Online (e-application). Whilst filling up the e-application, it is advisable to keep the relevant documents readily available to enable the following:

(a) Correct filling up of personal particulars. Details are to be filled up as given in the Matriculation Certificate.
(b) Fields such as e-mail address, mobile number are mandatory fields and need to be filled.
(c) All relevant documents (preferably in original), marks sheets upto 5th/7th semester for regular and integrated B.E / B Tech courses respectively, date of birth proof (as per 10th & 12th certificate), CGPA conversion formula for BE/BE.Tech, NCC ‘C’ certificate issued by National Cadet Corps, Merchant Navy certificate issued by Government of India, Ministry of Shipping & Transport and a recent passport size colour photograph should be scanned in original JPG/TIFF format, for attaching the same while filling up the form.

(i) If any scanned document is not legible/readable for any reason the application will be rejected. Candidates are to take print out of application and carry it while appearing for SSB interview.

(iv) The application once submitted will be final and no request for amendments/changes will be entertained.

Note (5). Your application is subject to subsequent scrutiny and the application can be rejected, if found INELIGIBLE/INVALID at any point of time.

Page 28
Highlights of the 77th Edition of Mann Ki Baat

- COVID-19 has been the biggest pandemic in the last hundred years and the country is fighting against it with all her might. This is a crisis that has plunged the whole world and many people have lost their loved ones. Every big country was not spared from its devastation. In the midst of this pandemic, India is moving forward with the resolve of 'the yojna'-service and cooperation'. In the first wave, we fought courageously; this time too India will be victorious in the ongoing fight against the virus. But it is a 'tough' social distancing rules, related to masks or vaccines, there should be no letup in our efforts. This indeed is the path to our victory.

- At this very moment of challenge, to facilitate transportation of Oxygen, Indian Railways has stepped forward. Oxygen Express (Oxygen rail) has transported larger quantities of Oxygen to all corners of the country, faster than Oxygen tankers travelling by road. Dr. Harsh Vardhan, a local pilot of Oxygen Express, with her entire team comprising of patients, is running a 24 hours nonstop Oxygen express. During Corona times, many women like you have come forward to pay homage to the country to fight the pandemic. Ferrying normal goods is a different matter. Ferrying Oxygen is a very delicate thing. Shrishti jgi got support from the Indian Railways as she was given green path to transport Oxygen timely and covered 125 kilometers in just 90 minutes.

- Empty tankers are being flown to Oxygen plants by Air Force planes. At the same time, work on construction of new oxygen plants too is being completed. Along with that, Oxygen, Oxygen concentrators and cryogenic tankers from abroad also are being brought into the country. In this context the Indian Navy, the Air Force, and the Army and institutions like DRDO are also involved. Many of our scientists, industry experts, and technicians too are working on a war footing.

- In normal circumstances, the country used to produce 900 Metric Tonnes of liquid medical Oxygen in a day. Now, it has expanded to more than 10 times the normal output and producing around 9,500 Metric Tonnes per day.

- At the beginning of the previous edition, there was only one testing lab in the country. However, today, more than two and a half thousand labs are in operation. Initially, only a few hundred tests could be conducted in a day and now more than 20 lakh tests are being carried out in a single day. So far, more than 33 crore samples have been tested in the country.

- The country has done what has become possible only because of countless frontline workers engaged day in and night in sample collection, going amidst infected patients, and taking their sample.

- To protect themselves, these heroes have to wear PPE kits continuously even in sweltering heat. After that, the sample reaches the lab.

- Thousands of people like Prakash Khandal lab technician for the last 10 years in Institute of Liver and Bilary Sciences, I cancelled my leave to come back to the labs for the last one year and have been doing such arduous work, saving the lives of people, about which the nation is getting to know today. Prakash Khandal, through you, I request all the members of your fraternity. I thank you wholeheartedly on behalf of all the ILBSC.

- While at present we were discussing Corona Warriors, there also is a very big role in this fight displayed by many such warriors across the country. The agricultural sector protected itself from this crisis to a great extent. Not only did it keep itself safe, but the sector also performed very well.

- In this pandemic, our farmers have achieved record harvest. The farmers produced record output and this time the country went on to procure record amount of crops. This time in many places farmers have got more than the minimum support price (MSP) for their produce. Due to the record food grain production, our country has been able to provide support to every countrymen. Today, 800 million underprivileged citizens are being provided free rations in this hour of crisis.

- Today the farmers of our country are doing farming in the most remote areas taking advantage of the new arrangements. For example, farmers of the state of Haryana.

- Attending the demand in the country and abroad, this time the jute crop of farmers of Agartala was brought to Guwahati by rail. These jute farmers are being sent to the state of Gujarat. Similar is the case with the Shirol Lichi of Bihar. In 2018, the government gave Contract to the Shirol Lichi so that its identity would be reinforced and the farmers would get better prices.

- This time the Shirol Lichi of Bihar has also been sent to London by air. From East to West, North to South our country is full of such unique vegetables and products. The country is selling hundreds of tons of Vizagagaram mangoes to Delhi. The people of Delhi and North India will get to eat Vizagagaram mangoes, and the farmers of Vizagagaram will earn well.

- The Kisan Rail has so far transported nearly 2 lakh tonnes of produce. The Kisan Rail is being able to load fruits, vegetables, grains to other remote parts of the country at a very low cost.

- 30th May the Date of Mann Ki Baat broadcast again marks the completion of 7 years of this government. In this period, the country has followed the mantra of Sabka Saath, Sabka Vikas, Sabka Vishwas. All of us have worked every moment with dedication in the service of the country.

- Together, we have experienced many such situation of national pride in these years. When we observe that now India gives a befitting reply to those who conspire against us, then our confidence soars. When India does not compromise on the issues of national security, then the strength of our armed forces increases, we feel that we are on the right path.

- In these 7 years, India has worked to show the world a new direction in the 21st century. Today, you can make digital payments with absolute ease at any time and anywhere, which is very useful even in this time of coronavirus.

- Today, the seriousness and awareness of the countrymen towards cleanliness is increasing. We are also launching record satellites and constructing record roads too.

Continued from page 1

CAREER AS WASTE MANAGEMENT PROFESSIONAL

the spread of the coronavirus through secondary transmission.

Waste management is essential in today's society. Due to an increase in population, the generation of waste is getting doubled day by day. Moreover, the increase in waste is affecting the lives of many people. There is an urgent global call to treat waste management as an essential public service. The efforts of the various international organizations, government agencies and research organisations working in the field of waste management in India have been admirable. There is a need for individual participation and active civic participation to manage waste.

India produces literal tons of waste every single day. Does anybody know where it goes? Actually, yes, someone does! It's the role of the officers in waste management to dispose of all this waste safely and efficiently.

Waste management is a challenging, but ultimately fulfilling area of work to get into. Essentially, it's all about planning and managing schemes that help reduce the environmental impact of waste that is produced by human activity or industrial operations. With changing consumption patterns and rapid economic growth, it is estimated that urban municipal solid waste generation will increase to 185 million tonnes in 2030.

The concept of 'Waste Management' is a comprehensive one. It includes management of waste collection, transportation, disposal/recovery, reuse or recycling of human waste, solid waste (including biodegradable and non-biodegradable refuse/trash/rubbish), waste water, sewage effluents, industrial wastes, and hazardous (such as hospital, chemical, radioactive, plastic or other dangerous) wastes.

Mahatma Gandhi once said, "Sanitation is more important than Independence." In 2014, Prime Minister Narendra Modi started a campaign called the 'Swachh Bharat Abhiyan' or 'Clean India Mission.' This campaign is helping people in creating awareness about how to improve waste management and apart from the government many NGOs are involved to make the mission successful.

Now the point is how to manage the waste of different types? With industrialisation, the problem of waste management has been discussed widely and with the help of environmentalists and others, the government is working hard to make effective policy for the waste management and thus it has thrown an ample opportunity for the students to make career in this field.

Swachh Bharat Initiative, the Indian government's flagship program to deal with waste collection and its effective management, is expected to provide immense growth opportunities to various upcoming startups that are focusing on providing innovative solutions.

Waste Management (or waste disposal) includes the activities and actions to manage waste from its inception to its final disposal. This includes the collection, transport, treatment and disposal of waste, together with monitoring and regulation of the waste management process.

Waste management is the managing of waste by disposal and recycling of it. Moreover, waste management needs proper techniques keeping in mind the environmental situations. For instance, there are various methods and techniques by which the waste is disposed. Some of them are Landfills, Recycling, Composting, etc. Further, more these methods are very useful in disposing of the waste without causing any harm to the environment.

The main objectives of waste management are:
1. The protection of environment through effective waste management techniques.
2. To protect health, well being and environment and to prevent pollution.
3. Eligible criteria. Those who are considering their career in waste management, must complete their 10+2 in Science stream with Chemistry, Mathematics, Biology, and English as compulsory subjects. Then one can take admission in a degree course or in related graduate courses like earth sciences.

Besides doing graduation one would gain work experience through voluntary organisations which will play a crucial role in improving your chances of getting better opportunities.

Courses in Waste Management:
- B.Sc Waste and Resource Management
- B.Sc Air Pollution Management and Control
- B.Sc Environmental Management (Waste, Energy, Water, Oil, and Gas)
- B.Sc Environmental Pollution Control
- B.Sc Earth Science

If you want to pursue higher studies in Waste Management, then you should have completed your Bachelor's in Waste Management, Environmental Science, Environmental Engineering, Chemistry or Civil Engineering.

A short term certificate course in Biomedical Waste Management, e-waste management, recycling and waste management courses are offered by several universities.

What do Waste Management professionals do?

The most common role in waste management is that of a waste management officer. These are the ones with the huge responsibility of handling the nation's waste on a day-to-day basis and disposing of it in the most suitable way.

- Running and monitoring recycling facilities and waste disposal sites.
- Managing and controlling teams of recycling collectors.
- Managing local and recycling services.
- Coming up with innovative recycling or disposal schemes.
- Spreading awareness in local communities and businesses on environmental and waste management issues.
- Handling and managing budgets.
- Organize research projects and activities of national groups concerned with the problem.
- Provide professional advice and training to governments and companies.
- Regularly analyzing statistics of waste and recycling of the local areas.

Skills Required

To make your career in liquid Waste Management, one should have basic mathematical skills as well as oral and written communication skills.

- Decision making and problem-solving skills.
- Flexibility and patience.
- Management and leadership quality.
- Excel at administrative work as well as field work.
- General office skills with IT knowledge.
- A keen interest in environmental and sustainability issues.
- Ability to apply and monitor adverse situations.

Career Opportunities

There are ample opportunities available in the market for those who want to make their career in Waste Management. One can find jobs in:
- Private firms
- Industrial organisations
- Consultancies
- Government organisations
- Environmental agencies as well as non-profit conservation projects.

One can find opportunities in government departments and waste management regulatory bodies. Once you have gotten several years of experience in the field, you would be able to move into an operational job. At the senior level, your responsibilities have completely changed like budget management in millions as well as the proper management of people and resources.

Institutes for Waste Management

- Indian Institute of Technology (IIT), Delhi
- Indira Gandhi National Open University (IGNOU)
- All India Institute of Hygiene and Public Health, Kolkata
- International Institute of Waste Management (IIMW), Bengaluru
- Top Recruiters
- Eco-Wise Waste Management, Greater Noida (UP)
- Paper recycling company - Green-O-Tech India, New Delhi
- Vermigold Ecotech, Mumbai

The waste management is evolving its way into the minds and daily lives of common masses, helping them understand the repercussions of the piling waste that is slowly infiltrating into the homes of the people. The simple truth rule for waste management is to extract maximum practical benefits from products and generate minimum amount of waste.

The solution is to ensure maximum waste recovery through composting, recycling and reuse as much as possible.

Careers in waste management are plenty. If you're determined and organized you can make a huge difference to the environment.

FRUITS AND VEGETABLES FOR HEALTH AND LONG LIFE

Many fruits and vegetables are seasonal and perishable. High losses during harvesting, transport and storage reduce their quantities available in shops and markets. Reducing food loss in the supply chain, strengthening the capacity of producer organisations and increasing investment in infrastructure can support post-harvest handling and distribution operations.

Declaring 2021 as the International Year of Fruits and Vegetables (IYFV) is an appropriate decision in the present COVID-19 situation all over the world. A group of senior scientists of the Global Indian Scientists and Technocrats (GIST) Forum have come forward to launch a revolution (Aasha Kranti) on April 13, 2021. The objectives of Aasha Kranti are to strengthen awareness, better nutrition and agriculture, and will educate the people about: values of Indian traditional diets, healing power of local fruits and vegetables and miracles of balanced diet. Aasha Kranti will revive all other forms of cultivation and towards meeting the sustainable development goals. At the end, it may be said: Choose your food wisely and enjoy your health proudly.

(The authors are associated with National Institute of Rural Development and Panchayati Raaj (NIRD Prathan) Branch, Regional Centre of Observatories at Jhalrapatan and Odisha University of Agriculture & Technology (Bhubaneswar) respectively, e-mail: pkpohcan2003@gmail.com)

Six Indian Sites added to UNESCO World Heritage Tentative List

The Union Ministry of Culture in May 2021 has informed that 10 cultural sites have been selected in the Tentative List of UNESCO World Heritage Site. These sites are temples of Kanchipuram in Tamil Nadu, Bhojeshwar-Lametaqat in Narmada Valley, Satpura Tiger Reserve in Madhya Pradesh, Riverfront of the historic city of Varanasi, Uttar Pradesh, Meghalaya site of Hill Benkal, Meghalaya, and Military Architecture in Maharashtra. Currently, there are 1,121 Heritage Sites across the world and these sites have joined the ranks of names included in the coveted World Heritage List.

What defines a world heritage?

Unesco’s world heritage is the designation for places on Earth that are of outstanding universal value to humanity. A world heritage can be of many types such as cultural, natural, mixed, cultural and natural, and immovable. Architectural works, works of monumental sculpture and painting, elements or structures of an archaeological nature, scientific phenomena or process, and buildings important from the point of view of history, art, science, aesthetic, and archaeology are considered cultural heritage. Natural heritage includes both natural physical and biological formations or groups of such formations, geological and physio-geographical formations and processes, do not only include all the habitat of threatened species of animals and plants, and natural sites or precisely delineated natural areas that are important for the survival of scientific, conservation, and aesthetic point of view. Those sites which satisfy a part or whole of the definitions of both cultural and natural heritage are considered as Cultural Natural Heritage. Moveable heritage may include books, documents, clothing, artifacts, artworks and historical, archaeological, philatelic, numismatic objects and also those related to science or technology. Unesco also defines cultural landscapes which are cultural properties created by man affecting the cultural landscape and natural heritage. Moveable heritage may include books, documents, clothing, artifacts, artworks and historical, archaeological, philatelic, numismatic objects and also those related to science or technology. Unesco also defines cultural landscapes which are cultural properties created by man affecting the cultural landscape and natural heritage.

What is the World Heritage List?

According to UNESCO, what makes the concept of world heritage exceptional is its universal significance. "It is a universal concept, a Unesco Declaration, an Outstanding Universal Value. World Heritage sites belong to the people of the world, irrespective of the territory on which they are located. Outstanding Universal Value means cultural and/or natural significance which is so exceptional as to transcend national boundaries and to be of common importance for the heritage of all humanity and/or opportunities presented by their natural environment and of successive social, economic and cultural forces, both European and non-European."

What is the World Heritage Tentative List?

As per the UNESCO Operational Guidelines, 2019, a Tentative List is an inventory of those places or sites of a country which the nation state considers suitable for nomination to the World Heritage List. It is mandatory to put a site on the Tentative List before it is considered for the final nomination to the World Heritage List. With the addition of these six sites, India now has 48 sites in the Tentative List. As per the guidelines, a country can submit the World Heritage List nomination document only if the site is being on the Tentative List. Tentative List sites are a useful and important planning tool for countries, and the World Heritage Committee is advisory and they provide an indication of full nominations.

Which Indian sites are in the World Heritage List?

There are 38 World Heritage Sites of India in the list. Some of these are the Taj Mahal (Uttar Pradesh), Mahabodhi Temple Complex, Bodh Gaya (Bihar), Humayun’s Tomb (Delhi), Konark Sun Temple (Odisha), Maheshwar, Sanchi Stupa (Bhopal), Amber Fort (Rajasthan), Khajuraho Group of Monuments, Kamasahab Temple, Malinqueri, Durgamal, Eran, Meenakshi Temple, Madurai, Panna Caves, Sanchi Stupa, Kamasahab Temple, Gokul (Morena), Chand Baori (Alwar), Ajanta Caves, Ellora Caves, Gadag Caves, Jain Temples of Modhera, Kedarnath, Badrinath, Jyotirlinga Temple, Allen Temple, Airavateshvara Temple, Parameswara Vinnagaram or Vaikunthaperumal temple, Mukeshwar temple, Ananta or Varahanatha Perumal temple, Ekambareswar temple (Thirukkoil), Jambukeshwar Temple, Pandava Dhooj Perumal temple, Yatharth Temple, Urukutippura Perumal temple, Ulagalanda Perumal temple. Through the emergence of Bhakti movement under eminent sants of Saivism and Vaishnavism, the temples have been sanctified in a structural edifice but also a vibrant institution of intangible heritage which has sustained for centuries. Several illustrious Bhakti literature were also associated with this place.

Surbhi Agrawal

Explain

Railway, and the Kailash-Shantra Railway, and Kasi-Ranga National Park (Assam). Of these, 30 are cultural and seven are natural sites. One (Khanchchendzonga National Park) is a mixed site.

Let’s know more about the six sites recently included in the Tentative List:

1. **Iconic Riverfront of the Historic City of Varanasi**

One of the most ancient continuously living cities of the world, Varanasi is one of the highest embodiments of Indian culture and spirituality. Presently more well known as a microcosm of Hindu pilgrimage, the city has been a centre of learning and reverence, spawning other religious inclinations including Buddhism, Jainism and Sishirnism. Owing to the immense sacred value associated with the Ganga River, the 6.5 kilometre-riverfront forms the most iconic part of the city. The riverfront, that is the interface of the river with the land, encompasses the ghats (the steps leading to the river bank), the magnificent edifices towering above them, and the quiet alleys flanked with temples, mosques, palaces, havelis, kunds, akharas, gardens and gateways. As per archaeological excavations, the riverfront was also a centre of commercial activities. The stepped ghats are a unique Indian typology of an architectural interface of the river with the land, and the Varanasi Ghats are the most brilliant representation of this form.

2. **Temple of Kanchipuram**

Kanchipuram was the capital of the Pallava dynasty which ruled present day state of Tamil Nadu from 6th to 8th century CE. The city finds a mention in ancient Sanskrit and Tamil literature. The ensemble of religious, cultural, social and political efflorescence for several centuries made Kanchipuram a vibrant centre of built heritage, particularly temples dedicated to Siva and Vishnu, with an all more than hundred and fifty temples. The 11 temples that have been identified under this nomination are: The Rajasimha Sarvamulaka temple, Pirarateswara temple, Irovathansereswara temple, Parameswara Vinnagaram or Vaikunthaperumal temple, Mukeshwar temple, Ananta or Varahanatha Perumal temple, Ekambareswar temple (Thirukkoil), Jambukeshwar temple, Pandava Dhooj Perumal temple, Yatharth Temple, Urukutippura Perumal temple, Ulagalanda Perumal temple. Through the emergence of Bhakti movement under eminent sants of Saivism and Vaishnavism, the temples have been sanctified in a structural edifice but also a vibrant institution of intangible heritage which has sustained for centuries. Several illustrious Bhakti literature were also associated with this place.

3. **Hire Benkal, Meghalaya Site**

The word 'Meghalaya' has been derived from two Greek words 'megas' meaning huge and 'alaya' meaning home. Hire Benkal site is located on top of castellated granite hillock within the zone of peninsular gneissic complex of the Dravidian series of rocks. The meghalaya on the hill encompasses an area of nearly 20 hectares. The site of Hire Benkal provides an exceptional insight into the funerary and ritual practices of the Iron Age (megalithic culture of Indian prehistory). The site consists of hundreds of megaliths (gigantic port-holed dolmens in majority) which are standing on mound for over 2,500 years. Another unique feature of Hire Benkal is its prehistoric rock paintings. Majority of the paintings especially belong to overlapping period of Late Neolithic and Early Iron Age. Megalithic culture, i.e., c. 700-500 BCE. However, a few paintings from Mesolithic period have also been reported. The depictions in rock art from Hire Benkal provides clue about subsistence strategies (hunting), weapons used (spears, axes comparable to one reported from megalithic excavated sites), fauna, etc. of the Iron Age.

4. **Bhojeshwar-Lametaqat in Narmada Valley**

Bhojeshwar, often referred to as the Grand Canyon of India, is a town in the Jabalpur district of Madhya Pradesh. The site is well known for the outstanding beauty of marble rocks (tobolite) and their various shades of gray. A natural waterfall in the site is also a natural feature on either side of the graceful Narmada river which flows through the gorge. The immaterial marbles of the Bhojeshwar area have fascinated tourists for centuries and bluish grey giving additional beauty to the marble rocks. Several dinosaur fossils have been found in the Narmada valley particularly in Bhojeshwar and Lametaqat areas. Bhojeshwar is the only site where marble, phyllite, BIF, quartzite of the Mahakolai group of Proterozoic age rocks have been recorded together. The Narmada river here falls into a 30-metre-deep gorge known as Dhnurhar Falls.

5. **Satpura Tiger Reserve**

Satpura Tiger Reserve, located in Satpura ranges in Central India, is one of the major geographical plateaus of India. Satpura, meaning “seven folds”, forms a watershed between Narmada and Tapti River. It is one of the oldest forest reserves with a well-established tradition of scientific management of forests. The site is of global significance in terms of tiger conservation. It has the largest tiger-occupied forest and it also has the largest tiger population in India. It is also an excellent example of its in situ conservation. It is part of the largest contiguous forest and tiger habitat in India. It supports 17 per cent of the tiger population, the highest percentage in any part of its tiger habitat. Apart from this, twenty-six species of the Himalayan region and 42 species of Nilgiri areas are found here. It also holds many hammerhead species, especially byrophyes and pterodactyles. The site is also of archaeological significance with more than 50 rock art sites and rock engravings that are 1,500 to 10,000 years old.

6. **Maratha Military Architecture (Serial Nomination)**

Fort of Western India occupy an important place in significance in the political and architectural history of the region. While in the rest of India, the tradition of construction of forts appears sporadically in space and time, it displays a vigorous and continuous activity in the Western India for a period of nearly 1,800 years, starting sometimes in the centuries before Christ and continuing almost up to the 19th century. The 14 forts identified under this nomination are Raigad Fort, Shivneri Fort, Torna Fort, Lohagad, Sahyad Fort, Mulshi Fort, Hadgad, Taware Fort, Kasa Fort, Sinnhund, Alibag Fort, Suvarnadurg, and Khanderi Fort. The Maratha military landscape, developed during the period of Chhatrapati Shivaji Maharaj, represents a very interesting phenomenon in the Indian history which remains unparalleled for its military ingenuity. Apart from their architectural grandeur, these forts also form a part of connecting the forts into a single operational system of defence through a strategic military network exploiting the geographical landscape which is made up of a mosaic of several mountainous ranges, thick forests, and small gorges. PM CARES scheme launched for support & empowerment of COVID-affected children

The Centre on May 29 decided that children who have lost both parents or surviving parent or legal guardian/adoptive parents due to COVID-19 will be supported under "PM-CARES for Children" scheme. They will get a monthly stipend once they turn 18 and a fund of Rs 10 lakh when they turn 23 from PM CARES. The scheme will take care of their educational needs, including higher education.

Clinical trial of COVAXIN on children begins at AIIMS Patna

The clinical trial of Bharat Biotech's COVAXIN on children has begun at AIIMS Patna. All 15 children who voluntarily came up for the vaccine trial had gone through the screening process such as RT-PCR, antibody test and general check-up prior to receiving their shots. Dr Sanjeev Kumar, nodal-in-charge for COVID at AIIMS Patna said the children who received their first shot are in the age group of 12 to 18 years.

Thaawarchand Gehlot launches SAGE project to support India's elderly

Social Justice and Empowerment Minister Thaawarchand Gehlot on June 4 launched the Senior care Ageing Growth Engine, SAGE project to select, support and create a one-stop access of elderly care products and services by credible start-ups.

IIT Hyderabad develops nano-fibre technology based oral tablets of Amphotericin B

The Indian Institute of Technology (IIT), Hyderabad has developed nano-fibre based oral tablets of Amphotericin B, called as Amb, to treat fungal infections post COVID treatment. The researchers have decided to keep the technology free of intellectual property rights and ready for technology transfer for mass production of the drug.

Agriculture Ministry launches Seed Minikit Programme

Seed Minikit Programme was launched by Union Minister for Agriculture and Farmer Affairs Narendra Singh Tomar on June 2 by distributing the minikits of high-quality and varied varieties of seeds to farmers. The minikits are being provided by the central agencies, National Seeds Corporation, NISF, NAFED and Gujarat State Seeds Corporation and it is fully funded by the Government through the National Food Security Mission. The distribution of seeds will continue till June 15.

Validity period of TET qualifying certificate extended

Union Education Minister Ramesh Pokhriyal Nishank announced on June 3 that the Government has decided to extend the validity period of Teachers Eligibility Test qualifying certificate from seven years to lifetime. This will be implemented retrospectively from the year 2011.

India to soon get 8 new Flying Training Academies under liberalised FTO policy of AAII

The eight new line Flying Training Academies will be set up at Belagavi, Jalgaon, Aihshabad, Kanhawari and Ltakai. These FTOs are aimed at making India a global training hub. This initiative will help the Indian flying training sector in becoming more self-sustaining under the Atee Nishkar Bharat initiative.

INTERNATIONAL

India working with WTO nations under TRIPS to ensure timely, secure access to vaccines for all

Foreign Secretary Harsh Vardhan Shringla has said that India is working with several other countries in the World Trade Organization (WTO) on a targeted and temporary waiver under TRIPS to ensure timely and secure access to vaccines for all. Addressing the World Health Organization's South-East Asia Regional Health Partners Forum on COVID-19 on June 3, Mr Shringla said that India is in discussion with major vaccine manufacturers like Pfizer, Johnson & Johnson and Moderna about sourcing and possible local manufacturing of their vaccines in India. He added that at the same time, India is also looking forward to WHO's approval for its indigenous vaccine 'Covaxin' manufactured by Bharat Biotech.

US unveils global vaccine sharing strategy, to donate 80 million doses by June end

The US has announced its framework for sharing at least 80 million COVID-19 vaccine doses globally by the end of June. In this regard, US Vice President Kamala Harris spoke to Prime Minister Narendra Modi and other world leaders and informed them about the US' global allocation plan of the first 25 million doses of COVID-19 vaccines. The White House has said that the US will allocate 75 per cent of the 80 million through the UN-backed COVAX global vaccine sharing programme.

African Union suspends Mali after military coup, threatens sanctions

The African Union (AU) has suspended Mali's membership in response to a second military coup in nine months. The Union has also threatened sanctions if the military did not hand back power to civilian-led transitional leaders. The military arrested interim President Bah N'Daw and Prime Minister Moor Daou and pressured them to resign, denying a transition to democratic elections after another military coup last August ousted the previous administration.

ECONOMY

World economy will expand by 5.8% this year: OECD

The Organisation for Economic Co-operation and Development (OECD) raised its 2021 global GDP growth forecast but warned that "too many headwinds persist" as not enough COVID vaccines are reaching emerging economies, making the world vulnerable to variants. In a report, OECD chief Laurence Boone said that although the economic outlook is brightening, it is doing so in a very uneven way.

Govt imposes restrictions on the export of Amphotericin-B injections

The Government has imposed restrictions on the export of Amphotericin-B injections, which are used in the treatment of mucormycoses, known as Black Fungus disease. In a notification issued by the Directorate General of Foreign Trade, the Amphotericin-B injections have been put in the restricted from free category.

Government issues operational guidelines for PLI scheme for pharma

The Government issued operational guidelines on June 1 for the Production Linked Incentive Scheme of Pharmaceuticals. The scheme envisages to create global champions out of India who have the potential to grow in size and scale using cutting edge technology and thereby penetrate the global value chain.

EPFO allows its members to avail second non-refundable COVID-19 advance

With a view to support its subscribers during the second wave of COVID-19 pandemic, Employees Provident Fund Organisation (EPFO) has allowed its members to avail second non-refundable COVID-19 advance. The Ministry of Labour and Employment in a statement said that the COVID-19 advance has been a great help to the EPF members during the pandemic, especially for those having monthly wages of less than 15 thousand rupees.

SPORTS

FIH world rankings: Indian Men's team climb to the 4th spot; Women’s team hold on to 9th

Indian Men’s Hockey team has climbed up a spot to No. 4 in the latest International Hockey Federation (FIH) world rankings. The Women’s team, on the other hand, maintained their ninth position. Belgium, the reigning world and European champions, lead the table, followed by the 2019 FIH Hockey Pro-League winners, Australia. In the Women’s category, Netherlands are leading followed by Argentina. Australia have climbed up to third position.

Brazil to host Copa America for 2nd consecutive time

Brazil will host Copa America for the second consecutive time after Colombia and Argentina were stripped of hosting rights for the tournament. South American soccer body CONMEBOL announced the decision after it ruled out Argentina amid an increase in COVID-19 cases in the country. Colombia was removed as co-host on May 20 as street protests against President Ivan Duque rocked the nation.

Sanjeeet Kumar, Pooja Rani strike gold at Asian Boxing Championships

Indian heavyweight boxer Sanjeeet Kumar bagged gold at the Asian Boxing Championships in Dubai, defeating Olympic silver medallist Vassilii Lebda of Kazakhstan in the men's 91-kilogram category. This was India's second gold at the Championships with Pooja Rani clinching the first in the women's 75-kilogram category. Indian contingent concluded its campaign with 15 medals—five gold, five silver and eight bronze.

India's Tokyo Olympics kits unveiled

Union Youth Affairs and Sports Minister Kiren Rijiju unveiled the team India official Olympic kit on the occasion of 50 Days Countdown to Tokyo Olympics. Chanting a meeting to review preparations for the Olympics, Prime Minister Narendra Modi said that both India and the UK are creating a strong and vibrant culture of sports and that everyone's wishes are with the nation's youngsters participating in the Olympics. 100 athletes have qualified for the Tokyo Olympics across 11 sports disciplines.
