ARTIFICIAL INTELLIGENCE: BENEFITS AND PITFALLS

Dr. Shrikant V. Sonekar

Artificial Intelligence (AI) is succeeding at all the fronts of technology, from speech interpretation and recognition interface to self-driving cars. It is one of the top-most technologies having huge potential in the present times as well as the future. In broad terms, Artificial Intelligence is the ability of a computer program to learn and think. The opportunity for innovation, modernisation and development in AI is enormous and it will keep changing the world in diverse ways in the future. Involvement of AI is everywhere, right from space exploration to advancements in defence systems and more. The technology is expanding progressively, and it has the potential to be more intelligent than ever. The phrase “human error” came into existence because humans make mistakes as and when they learn. On the contrary, computers, if properly programmed, don’t make mistakes. When AI is used, decisions are taken from the previously gathered information applying a certain set of algorithms that are trained and accuracy is achieved with a greater degree of precision. AI is not restricted to only robots with human characteristics, it encompasses anything from Google’s search algorithms to IBM’s Watson to autonomous weapons.

What is Artificial Intelligence?

In broad sense, Artificial Intelligence is a branch of computer science wherein smart machines are built in such a manner that they respond and behave like humans. The purpose of building an intelligent system, machine or robots is to support the decision making process which is completely analysed, based on the data that is available with the organization. The entire process of building an intelligent system is same as that of humans blending the Information and providing suitable decision. The only difference is that in case of AI, the decision making is reached by analysing tons of generated and gathered data. Technocrats have categorized AI into two parts – Narrow AI and General AI. The former is designed to accomplish basic tasks or to outperform the basic human task such as facial recognition, playing chess, solving equations, internet searches or only driving car. The later one is meant to design cognitive, intellectual, perceptual and rational task.

Many vocations involve performing repetitive works like sending thank you email, verifying certain documents for errors etc. For example, verification of documents for precision sense for sale or feature of AI Cognitive Automation helps to speed up the process of verifying the documents. Some of the highly advanced organizations use digital assistants to interact with users which save the need for human resources. Digital assistants are also used in many websites and mobile applications to attend users’ queries. We can chat with them about weather, food, etc. looking for. Some chat bots are designed in such a way that it becomes hard to determine that we are chatting with a chat bot or a human being.

Artificial Intelligence incorporates both Machine Learning and Data Science AI has many inferences, depending on the specific industry it is used in. Most often, when people say AI, what they generally mean is Machine Learning. The

CAREER IN CINEMATOGRAPHY

Hiroo Keswani

What is Cinematography?

Giving visuals to the Director’s vision describes the role of a Cinematographer. A vocation that conjures up images of snow-capped peaks, low lying clouds in a mist captured in slow motion or time-lapse, action unfolding in hot sultry sand dunes, brightly lit comedy capers, moodily drawn images in shadows of a thriller. All of these are aiding visually to the drama unfolding in a darkened theatre or in your dinky lit space in front of your viewing screens. One has to have a passion for cinema, the art and its history to thoroughly enjoy and take up Cinematography as a profession. Cinematographer, Director of Photography (DOP), and few other such titles go along with your name, in accordance to your experience and your seniority in the field. Living legend Roger Deakins says, “Apart from capturing the Director’s vision, the other part to figure out for the DOP, is the ‘style’ of the film... Cinematography, that’s just right for the film.”

From early 60s to 90s, the cinema was totally analogue. Everything from the shooting to editing, to sound and final release was on celluloid. Cinema had to its credit an overall history of 100 years and more, to have survived from its silent era to its 70 mm and IMAX extravaganza in the millennium. The format evolved from 8mm, to 9mm, then to 12.5mm and 16mm and 35mm and eventually got standardized as 8mm for home movies, 16mm for documentaries and low budget features, and 35mm for big theatre releases. As the digital era dawned, celluloid and mechanical movements of cameras have got replaced with electronics and digital sensors instead. Basics are the same. Earlier, light passing through a lens attached to the camera hit and set off a chemical reaction to the celluloid strip. Now, in digital camera, light hits a sensor where science and algorithms set off a manipulation and replica of how the eyes see and perceive color. After the Director and Art Director, the most important person on the set was and now still is the Cinematographer. Their job profile entails thorough knowledge of film stocks available, kind of cameras and its functioning, understanding lighting to play with lights and shadows to evoke a mood, intrinsic design sense for sets or outdoor locations, and framing and composition to give meaningful visuals to the Director’s vision. Cinematography is taught as an art form and as a vocation at two prestigious Indian film schools - FTII (Film and Television Institute of India, Pune) and SRFFT (Sathyaj Ray Film and Television Institute), Kolkata. There are introductory short courses available online on FTII website, under their initiative called SKIFT (Skilling India in Film and Television), which can help one
Digital India is an umbrella programme that was launched by the Government of India in 2015 with the vision to transform India into a digitally empowered society and knowledge economy. The initiative weaves together a large number of ideas and thoughts into a single, comprehensive vision so that each of them can be implemented as part of a larger goal. Digital India aims to provide the much-needed thrust to the nine pillars of growth areas, namely Broadband Highways, Universal Access to Mobile Connectivity, Public Internet Access Programme, e-Governance: Reforming Government through Technology, e-Kranti- Electronic Delivery of Services, Information for All, Electronics Manufacturing, IT for Jobs and Early Harvest Programmes.

Let us look at some of the several important initiatives undertaken by the Government in line with the vision of Digital India.

1. AADHAAR

Aadhaar identity platform is one of the key pillars of Digital India, wherein every resident of the country is provided with a unique identity or Aadhaar number. The largest biometric-based identification system in the world, Aadhaar is a strategic policy tool for social and financial inclusion, public sector delivery reforms, managing fiscal budgets, increase convenience and promote hassle-free people-centric governance. It is unique and robust enough to eliminate duplicate or fake identities and may be used as a base/primary identifier to roll out several Government welfare schemes and programmes for effective service delivery thereby promoting transparency and good governance.

2. BHARATNET

One of the biggest rural telecom projects in the world, BharatNet aims to connect all Gram Panchayats with Broadband. The aim is to connect six lakh villages in 1,000 days within the target date of May 2023. As compared to 2014, when only 68 Gram Panchayats had Broadband, 1.5 lakh Gram Panchayats are now connected with Optical Cable Fibre under BharatNet Prime Minister Narendra Modi, in his address on the occasion of 74th Independence Day said that “Participation of rural India and villages in Digital India is very important for balanced development of India.”

3. MYGOV

MyGov is a citizen engagement platform that disseminates authentic information on Government policies, programmes, schemes, guidelines, SOPs etc. to citizens in a citizen-friendly format through social media platforms. It is a unique first-of-its-kind participatory governance initiative involving the common citizen at large. The idea of MyGov brings the government closer to the common people by the use of online platform creating an interface for healthy exchange of ideas and views involving the common citizen and experts with the ultimate goal to contribute to the social and economic transformation of India. MyGov has over 1.82 crore registered users. During the COVID-19 pandemic, MyGov is also working as a crowdsourcing platform for medical equipment and essentials. The Government also launched India’s first Artificial Intelligence-enabled MyGov Corona Helpdesk to provide latest information, curb rumours, and misinformation.

4. AAROGYA SETU

The world’s most downloaded COVID-19 tracking app, Aarogya Setu works as guiding light for the Government to identify hotspots, aiding in curbing the spread of the infection. The app augments the initiatives of the Government of India, particularly the Department of Health, in proactively reaching out to and informing the users of the app regarding risks, best practices, and relevant advisories pertaining to COVID-19. If one makes a first or a second-degree contact with a COVID-19 positive person, Aarogya Setu alerts them and gets them timely medical help. The self-assessment test also helps one in identifying possibilities of infection.

5. CoWIN

India developed CoWIN as the central IT system for strategizing, implementing, monitoring, and evaluation of COVID19 vaccination. CoWIN is the digital backbone for the vaccination drive in India. CoWIN helps citizens in finding vaccination centres as per the vaccine availability and online vaccination slot booking. The platform also issues a universally verifiable digital certificate post vaccination. As on June 30, 2021, over 30 crore registrations had been completed through CoWIN. Recently, many countries have shown interest in using this platform.

6. e-AUSHADHI

e-AUSHADHI (Ayurveda, Unani, Siddha and Homoeopathy Automated Drug Help Initiative) portal supports the fight against COVID-19 with increased transparency and accountability for medical supplies across India. The portal has benefited States in ensuring to save costs by 20% by a scientific forecasting system. The portal also aids in streamlining warehouse management, quality management, equipment inventory, equipment complaint chain management, equipment auction life cycle, human resource and finance management.

7. TELE-LAW

Tel-Law scheme is an effort to make legal aid accessible to the marginalized communities and citizens residing in rural areas. The scheme envisages the use of communications and IT for the delivery of legal information and advice. This is a medium of e-interaction between lawyers and citizens through video-conferencing or telephone/phone mode. 8,63,756 beneficiaries registered and 8,41,293 received advice (as on May 2022). Beneficiaries include 2,91,347 women, 2,08,514 people from Scheduled Castes, 1,69,677 from Scheduled Tribe, and 2,52, 208 from Other Backward Classes.

8. DIGILOCKER

DigiLocker is a secure cloud-based platform for issuance, sharing and verification of critical lifecyle documents or certificates. It has created a new paradigm for true paperless governance. Currently, DigiLocker provides access (anytime, anywhere) to more than 347 crore digital documents (legally accepted as originals) issued from over 100 issuers comprising of Central and State agencies as well as Transport Department, IT Department, State and Central Education Boards, etc. DigiLocker aids in faster delivery of all Government benefits, employment, financial inclusion, education, health and more. It also brings ease of doing business for various agencies, as it enables Government agencies to verify data directly from issuers after obtaining user consent.

9. FASTAG

FASTag is a device that employs Radio Frequency Identification (RFID) technology for making toll payments directly while the vehicle is in motion. FASTag (RFID Tag) is affixed on the windscreen of the vehicle and enables a customer to make the toll payments directly from the account which is linked to FASTag. It offers the convenience of cashless payment along with benefits like savings on time and the customer does not have to stop at the toll plaza.

10. UMANG

UMANG (Unified Mobile Application for New-Age Governance) is a common, unified platform and mobile app that facilitates a single point of access to all Government services. Its primary aim is to abridge inconvenience faced by users in managing multiple mobile apps. UMANG brings over 1,200 Central & State Government services as well as more than 20,000 bill payment services all at one place. UMANG is integrated with Aadhaar, DigiLocker, Payment Gateway, SMS/E-mail Gateway, etc. to offer end-to-end digital/mobile delivery of services. Since its launch in 2016, UMANG app has come a long

4 Years of GST: Significance & Impact

B orn out of the need to have a nation wide simple and transparent system of taxation to enable the Indian industry to compete not only internationally, but also in the domestic market, the historic tax reform was first rolled out on 1st July, 2017.

Prime Minister Narendra Modi has lauded GST on its completion of four years and said it has been a milestone in the economic landscape of India. In a tweet, the Prime Minister said, "GST has decreased the number of taxes, compliance burden & overall tax burden on common man while significantly increasing transparency, compliance and overall collection."

What is GST?
GST is one indirect tax for the whole nation, which will make India one unified common market. GST is a single tax on the supply of goods and services, right from the manufacturer to the consumer. Credits of input taxes paid at each stage will be available in the subsequent stage of value addition, which makes GST essentially a tax only on value addition at each stage. The final consumer will thus bear only the GST charged by the last dealer in the supply chain, with set-off benefits at all the previous stages.

What does GST mean for Business and Industry?
- **Easy compliance:** A robust and comprehensive IT system is the foundation of the GST regime in India. All taxpayer services such as registrations, returns, payments, etc. are available to the taxpayers online, which makes compliance easy and transparent.
- **Uniformity of tax rates and structures:** GST ensures that indirect tax rates and structures are common across the country, thereby increasing certainty and ease of doing business. In other words, GST makes doing business in the country tax neutral, irrespective of the choice of place of supply.
- **Removal of cascading:** A system of seamless tax-credits throughout the value-chain, and across boundaries of States, ensures that there is minimal cascading of taxes. This reduces hidden costs of doing business.
- **Improved competitiveness:** Reduction in transaction costs of doing business eventually leads to an improved competitiveness for the trade and industry.
- **Gain to manufacturers and exporters:** The subsuming of major Central and State taxes in GST, complete and comprehensive set-off of input goods and services and phasing out of Central Sales Tax (GST) reduces the cost of locally manufactured goods and services. This increases the competitiveness of Indian goods and services in the international market and gives a boost to Indian exports. The uniformity in tax rates and procedures across the country also goes a long way in reducing the compliance cost.

EN Explains

ii. Central and State Governments?
- Simple and easy to administer: Multiple indirect taxes at the Central and State levels were replaced by GST. Backed with a robust end-to-end IT system, GST is simpler and easier to administer than all other indirect taxes of the Centre and States.
- Better controls on leakage: GST has reduced the number of tax compliances due to a robust IT infrastructure. Due to the seamless transfer of input tax credit from one state to another in the
- Which taxes at the Centre and State level were subsumed into GST?

At the Central level:
- Central Excise Duty
- Additional Excise Duty
- Service Tax
- Customs Duty
- Central Excise Duty Commonly known as Countervailing Duty
- Special Additional Duty of Customs

At the State level:
- Subsumption of State Value Added Tax/Sales Tax
- Entertainment Tax (other than the tax levied by the local bodies)

iii. The Consumer?
- Single and transparent tax proportionate to the value of goods and services: Due to multiple indirect taxes being levied by the Centre and State, with incomplete or no input tax credits available at progressive stages of value addition, the cost of most goods and services in the country used to be laden with many hidden taxes. GST ensured only one tax from the manufacturer to the consumer, leading to transparency of taxes paid to the final consumer.

Relief in overall tax burden:
- Because of efficiency gains and prevention of leakages, the overall tax burden on most commodities has come down to the benefit of the consumers.
- Higher revenue efficiency: GST has decreased the cost of collection of tax revenues of the Government, and thus, led to higher revenue efficiency.

iii. What has been the impact of GST?
- India's tax base has almost doubled from Rs. 66.25 lakh to Rs. 1.28 crore in the last four years. According to the Union Finance Ministry, GST revenue collection in India has been over the Rs. 1,00,000 crore-mark for eight consecutive months in a row with as much as Rs. 1,02,702 crore collected in May alone. This is despite the fact that many states remain under strict COVID-19-enforced lockdown.
- GST has significantly eased one of the most complex indirect tax systems in the world. A company looking to do business in every state had to make as many as 495 different submissions. Under GST, that number has reduced to just 12.
- GST has reduced the rate at which people have to pay tax. The revenue neutral rate as recommended by the RNR (Revenue neutral rate)Committee was 16.3%. Compared to this, the weighted GST rate at present, according to the RBI is only 11.6%.
- GST is both consumer and taxpayer-friendly. While high tax rates of the pre-GST era acted as a disincentive to paying tax, the lower rates under GST helped to increase tax compliance. More than 66 crore GST returns have been filed so far. Under GST, compliance has also been improving steadily, with around 1.3 crore taxpayers registered.

Today, businesses with an annual turnover of up to Rs. 40 lakh are GST exempt (for goods). Initially, this limit was Rs. 20 lakh. Additionally, those with a turnover up to Rs. 1.5 crore can opt for the Composition Scheme and pay only 1% tax (for goods). For services, businesses with turnover up to Rs. 20 lakh in a year are GST exempt. A service provider having turnover up to Rs. 50 lakh in a year can opt for the composition scheme for services and pay only 6% tax.

In light of COVID-19, taxpayers were given certain compliance-related relaxations to ease their burden. Relief was provided by way of payment deferred, reduced interest rate, and waiver of late fee/capping of late fee to Rs. 500 in certain cases.

The GST Council decided to slash the GST rate on several key COVID-19 essential supplies so as to provide relief to citizens during the pandemic. A 5% GST cut was given for medical oxygen, Remdesivir, Heparin (anti-coagulant), COVID-19 testing kits, inflammatory diagnostic kits, hand sanitizers, helmets (non-invasive ventilation), gas/electric/oxygen furnaces for crematorium (including their installation), pulse oximeters, medical/narcotic drug dispensing devices, oxygen concentrators/generators, ventilators, BIPAP machine, temperature check equipment. A 12% cut was announced for ambulances and no GST for Tocilizumab and Antiprion.

On the recommendations of the Commission, GST is not applicable on specific COVID-19-related relief goods such as medical oxygen, oxygen concentrators, and other oxygen storage and transportation equipment, certain diagnostic markers, test kits, and vaccines, meant for donating to Government or any other relief committees on the recommendation of State authorities till August 31, 2021.

The GST Council recommended several trade beneficial clarifications in light of the COVID-19 pandemic. One of these was related to Anatomy. It was clarified that GST is not applicable on services supplied to an educational institution, including Anagawadi, by way of serving of food/catering irrespective of its funding from Government grants or through corporate donations.

The GST Composition Scheme was revamped over the years. Service providers were included under the Scheme, and the limit for manufacturers and traders was increased from Rs. 1 crore to Rs. 1.5 crore a year. These measures benefitted more than 25 lakh taxpayers. With effect from FY 2019-20, Composition Scheme is extended to suppliers of services (up to Rs. 50 lakh turnover). Further, the composition taxpayers were allowed to furnish returns on an annual basis as against quarterly as was the case earlier.

CAREER IN CINEMATOGRAPHY

decide if learning and practicing Cinematography as a profession is for you or not.

Cinematography then...
The motion picture industry has changed a lot in the past 10-15 years from the conventional way of celluloid base (the physical handling of camera negative and print film) changing to its current digital avatar. In the early days of cinema, only the Cinematographer during a film shoot would know what and how the scene in front of the camera was being captured, as it was his technical knowledge of film stock and a keen eye, through the viewfinder, which helped him see the action unfold and get imprint on the negative as the camera whirred. There was no other method to monitor the day's proceedings other than getting the day's work processed in the laboratory and seeing the 'rushes' in the evening or the next day. Subsequently, as technology and electronics improved, the Director got a chance to 'tap' into the camera and 'video assist' became the norm in monitoring the day's proceedings during a shoot. This was in early 70s and 80s. From the year 2000 onwards, the digital era dawned completely changed the way films were shot, monitored and exhibited.

- Lights rental house
- Camera equipment rental store
- Digital Imaging Technician (DIT)
- Colorist
- Post Production supervisor / technical expert for a channel or OTT platforms

Among these options, the most lucrative one is DIT.

What and who is a DIT? DIT is a term or a position given to the person on the film set, who handles the exact BITS andBYTES transfer of your digital image acquired from the camera (the image files) and also the simultaneous sync sound files from the audio station along with footage from the guy doing the 'making' of the film or the BTS behind the Soho's footage on a film shoot. Basicadly a data wrangler. Looks and sounds easy - copy and paste the image and audio file. Well, it's a highly responsible job, once you know and understand the duties of a DIT and the stuff he or she does. You should be ready to slog and work from an outdoor location like a street, a parking lot, a remote corner of a constructed set or a plush hotel room, as may be demanded by the tough off-the-broadway locations of the film being shot. The need for the DIT came when the digital cameras were able to give out RAW and other optional digital file formats as image to the camera cards. These

Cinematography now...
The new digital cameras and the recorded file systems eased the process and made it convenient to show the image to the camera team, the production team, the direction team and the Producers. Various tests and areas are created where different sets of people view the day's proceedings and take collective decisions. The video assistant person mostly catered to this, during the video tap days. But in this digital cinema age, there has to be more than just allowing yourself to be a Cinematographer. The 2-3 years spent in a film school learning about filmmaking and specializing in your craft gives you more opportunity than just being a 'camera person' that you do become. The knowledge you pick up also helps you in becoming an entrepreneur. You can become an entrepreneur by doing one or all of the following:
- Steadicam or any image stabilizing equipment operator/provider
- Aerial and drone systems operator/provider
- Motion control systems operator/provider

Benefits of having a DIT on shoot

Coordination of post production requires communication with a variety of different people, understanding expectations of each department like sound, edit, VFX and final color correction respectively.

Technical management and post production work flow: The process requires a person to liaison with all units including recuperation of the based material at the end of the shoot, ruling out unforeseen surprises and cost. For example, what kind of transcoded files to make which are easy to use on any editing software. After the edit lock and EDL, will the RAW files match the proxy files and open up in a post production digital imaging facility later - one has to think that much ahead of the pre-production stage. The DIT also makes suggestions to shorten the whole production time according to the budget and easy turn around with best RAW image options.

On-set Workflow: Ensuring correct use of camera technology (different cameras, formats, codes, bit depth, transfer data rate etc). Security of footage transferred (a day's costing for the shoot depends on this simple but highly crucial process), so right gear and equipment for the above job is the key. Draggimg and dropping the files from the camera card is the unsafe method to do the transfer. Ancillary software with check sum facility are needed to correlate bits and bytes as recorded and as transferred and backed up. Guaranteed transfer of every bit of shot material on the recorded camera card to a safe sturdy hard drive and its backups. Visual verification of transferred material in a quickest manner possible, so that timely intervention is done in cases of anything going wrong before any setup is changed during a shoot. Earlier, during a video tap it was an auto exposure recorded footage on tape or a DVD disk, not helping you judge the accuracy of aperture, contrast and legal limits of highlight and shadows, which now is possible in real time.

DIT ensures that the day's work is securely and effectively backed up as master backup and two backup copy using paid software such as Shotput Pro, Silverstack or Davinci Resolve free version for coding.

DIT caters to the DOP and the Cinematographer by supervising a team of assistants and focus puller to check technical consistency of the digital camera codes, aspect ratio, film formats, cards are given back for reformating in any issue coming up, handling multiple formats and different cameras, matching look and consistency, designing a LUT along with the DOP.

Any mistake or oversight (soft focus, dead pixels, dirt on lenses or filters etc.) spotted at the shoot stage is better than spending millions later to correct them. The DIT works with the production team and Producers by safely giving back ups and answering questions and doubts regarding technical aspects of digital cinema for the uninitiated. DIT caters to the Director by lining up the edit or day's rushes to evaluate at home. DIT caters to the first Assistant Director / Script Supervisor first and second assistant camera to check all mentioned shots in continuity and to ensure that script supervisor reports and camera reports have been transferred before the camera leaves and DIT helps the editing crew in transcoding proxy files of the day's work to be easily playable on edit software. So the basic

DIT setup

Depending on the above, the team can decide, as per the budget of the production, an independent setup or a setup for mid level or high budget film, whether the production has a need of just a data wrangler to just transfer copy backup of footage, or a DIT along with the data wrangler for quality control of footage and transcoding, or a Senior DIT - all of the above and on set color management and workflow involvement. Depending on the above 3 scenarios, the person will be coming to the set with necessary hardware, software options, justifying their involvement and the budget.

Qualifies a DIT must have

Though knowledge of the science of digital filmmaking is a must. A cinematography student or a practicing professional is best suited for this job as one has to have that knowledge of all digital cameras, knowledge of computers and its associated hardware and software and also of color theory. This can later create an opportunity for growth as a Colorist too. Most importantly, a DIT should posses the skill of an effective team member and have the ability to take certain decisions which can save the day and money on a film set. Basically, apart from creating backup of the footage for the Producers, the DIT liaisons with the DOP and his team to get the best out of the camera. The DIT should understand that the DOP may and will have a decent knowledge of all of the above, but they may be involved deeply into creating images and completing the day's work for the producer/director. One should not be faulting one's knowledge and position on the sets, because in the hierarchy, the DOP is much above the DIT. The DIT team has to be discreet in their approach to point out mistakes or accidents happening. DIT person should have the understanding of color and color space (shooting, viewing, display and deliverable color space) to be able to provide a look or a color to the RAW images being shot, which is a big help on set, to apply a predetermined 'look' or a LUT, or create one for the DOP/Director and also a 'look' laden transcoded shots for the edit.
INDICATIVE ADVERTISEMENT NO. 09/2021

Online Recruitment Applications (ORA) are invited for direct recruitment by selection through website http://www.upsconline.nic.in to the following posts by 12th August, 2021.

1. (Vacancy No. 21070901224) Three vacancies for the post of Assistant Director in Central Fertilizer Quality Control and Training Institute (CFQCTI), Faridabad, Department of Agriculture, Cooperation and Farmers Welfare, Ministry of Agriculture and Farmers Welfare (OBC-01, UR-02) (PH-‘01). “Of the three vacancies, one vacancy is reserved for candidates belonging to PwBD with Locomotor Disability including Cerebral Palsy, Leprosy Cured, Dwarfism, Acid Attack Victims, Muscular Dystrophy with disability i.e. One leg affected (R or L) (OL) or One arm affected (R or L) (OA) or One leg and One arm affected (OLA) or Cerebral Palsy (CP) or Leprosy Cured (LC) or Dwarfism (DW) or Acid Attack Victims (AAV) or Muscular Dystrophy (MDy). Pay Scale: Level-10 in the Pay Matrix as per 7th CPC. Age: 35 years.

2. (Vacancy No. 21070902224) One vacancy for the post of Assistant Director (Weed Science) in Directorate of Plant Protection, Quarantine and Storage, Faridabad, Department of Agriculture, Cooperation and Farmers Welfare, Ministry of Agriculture and Farmers Welfare (UR-01). Pay Scale: Level-10 in the Pay Matrix as per 7th CPC. Age: 35 years.

3. (Vacancy No. 21070903424) Eight vacancies for the post of Research Officer (Implementation) in the Regional Implementation Offices, Department of Official Languages, Ministry of Home Affairs, (SC- 01, OBC-02, UR-05) (PH-‘01). “Of the eight vacancies, one vacancy is reserved for candidates belonging to PwBD with Locomotor Disability including Cerebral Palsy, Leprosy Cured, Dwarfism, Acid Attack Victims, Muscular Dystrophy with disability i.e. One leg affected (R or L) (OL) or One arm affected (R or L) (OA) or Cerebral Palsy (CP) or Leprosy Cured (LC) or Dwarfism (DW) or Acid Attack Victims (AAV). Pay Scale: Level-07 in the Pay Matrix as per 7th CPC. Age: 30 years.

4. (Vacancy No. 21070904424) Thirty-four vacancies for the post of Senior Grade of Indian Information Service in Ministry of Information and Broadcasting (SC- 04, ST-02, OBC-08, EWS-03, UR-17) (PH-‘02). “Of the thirty-four vacancies, two vacancies are reserved for candidates belonging to category of Persons with Benchmark Disability (PwBD). Of the two vacancies, one vacancy is reserved for candidates belonging to category of Persons with Benchmark Disability (PwBD) with Deaf and Hard of Hearing disability i.e. Fully Deaf (FD) or Hard of Hearing (HH) and one vacancy is reserved for candidates belonging to category of Persons with Benchmark Disability (PwBD) with Autism, Intellectual Disability, Specific Learning Disability, Mental Illness i.e. Autism Spectrum Disability (ASD) or Intellectual Disability (ID) or Specific Learning Disability (SLD) or Mental Illness (MI). Pay Scale: Level-07 in the Pay Matrix as per 7th CPC. Age: 30 years.

The crucial date for determining the age limit shall be the closing date for submission of online application.

The candidates willing to apply for the above posts are advised to visit Commission’s ORA Website http://www.upsconline.nic.in. The detailed advertisement along with ‘Instructions and Additional Information to candidates for Recruitment by Selection’ has been displayed on Commission’s Website http://www.upsc.gov.in as well as on the Online Recruitment Application (ORA) website http://www.upsconline.nic.in.

CANCELLATION NOTICE

1. (F1/178(26)/2019-R IV) It is to inform all concerned that the recruitment process for two (02) vacancies of the post of Deputy Director (Planning/Statistics) in the Planning Department, Govt. of NCT of Delhi, Vacancy No. 20935013414, published by the Commission in Employment News Paper on 14.03.2020 vide Item No. 13 of Advertisement No. 05/2020 has been cancelled on the request of the indenting Department, i.e. Planning Department, Govt. of NCT of Delhi.

2. (F1/179(25)/2015-R II) It is notified for information to all concerned that as the requisitioning Ministry has withdrawn the requisition, the process of recruitment to Six (06) (UR-08) vacancy for the posts of Assistant Director (Non-Medical) in Central Research Institute, Kasauli, Directorate General of Health Services, Ministry of Health & Family Welfare by direct recruitment advertised in the Employment News/Rozgar Samachar and website of the Commission on 14.11.2015 (Commission’s Advertisement No.16/2015 at Item No: 02, Vacancy No. 151110602214), stands cancelled.

7. The post code 1, 2 & 3 carry usual allowances as admissible to Central Government employees posted at Mysuru.
8. The upper age limit will be reckoned as on the last date prescribed for receipt of applications.

*Continued*
Employees Under Disciplinary Proceedings:
Employees against whom disciplinary Proceedings are pending or contemplated shall not be considered for appointment on Deputation.

The period of experience in a discipline / area of work, wherever prescribed, shall be reckoned from the date of acquiring the minimum prescribed educational qualification prescribed for the post and will be reckoned as on the last date prescribed for receipt of Applications.

The Applications received in response to advertisement will be scrutinized and only short listed candidates will be called for further selection process and it will be notified on the AIISH website.

The competent authority has the right to accept or reject any application without assigning any reasons.

Conversing in any form and/or bringing in any influence political or otherwise will be treated as a disqualification for the post.

Interim enquiries and other enquiries will not be attended to.

Candidates are advised to visit our website www.aiishmyore.in for latest updates issued through notifications, instructions, and circulars relating to this recruitment process. No separate communication in this regard will be sent.

Candidates applying for more than one post should submit separate applications for each post indicating the name of the post and postcode in each Application applied for.

GENERAL CONDITIONS / INFORMATION FOR POST CODE 4 & 5:
1. It is intended to fill the post code 4 & 5 on regular basis at this Institute.

2. All the details furnished in the offline application will be treated as final and no changes shall be entertained and Director, AIISH has the all the rights to cancel the advertisement without any prior intimation.

3. Applications without photograph, signature, necessary marks cards, Diploma certificates, Degree Certificates, Age proof, Age relaxation in support of their application, certificates in support of claim for exemption under OBC/SC/ST/EWS category, Certificate of disability, No objection certificate, Experience Certificate and disability certificate as per the Government norms (wherever applicable) shall be summarily rejected. This shall also be applicable to the candidates working in All India Institute of Speech & Hearing, Mysore.

4. The qualifications prescribed should have been obtained through recognized Universities/ Institutions.

5. The prescribed Essential Qualifications are a bare minimum and no possession of it will not entitle the candidates to be considered for the post. The candidates should furnish all the Qualifications and Experience possessed in the relevant field, over and above the minimum qualifications prescribed for consideration of their candidature. Rehabilitation professionals shall hold a valid registration with RCI.

6. The offline application has to be invariably accompanied with a No objection certificate from the employer concerned, by that already in employment under Central/State Govt./Public Sector undertakings or Autonomous Bodies, otherwise application shall be summarily rejected.

7. The period of experience in a discipline/area of work, wherever prescribed, shall be reckoned from the date of acquiring the minimum prescribed educational qualification prescribed for the post and will be reckoned as on the last date prescribed for receipt of applications.

Candidates are encouraged to apply for posts reserved for the respective categories by endorsing appropriate certificates issued by Competent Authorities.

Age Relaxation: Age should not exceed the limit prescribed for each category of post as on the closing date for receipt of filed in applications. The upper age limit against each post is for general category posts. Wherever posts are reserved for SC/ST/OBC/EWS which are indicated against the posts, relaxation in age shall be provided as per Govt. of India orders on the subject. This relaxation is subject to production of certificates issued by Competent Authority as per the Govt. of India rules. (The OBC certificate/EWS category certificate in the format of Govt. of India only issued on or after 01st August 2020 is acceptable. Moreover, State Govt. formats are not acceptable and requests for age relaxation in such cases shall be summarily rejected.)

The upper age limit will be reckoned as on the last date prescribed for receipt of applications.

The scale of pay notified is as per the VII CPC recommendations.

Candidates should mention postcode and name of the post in their application form with passport size photo attached and the photocopies of all educational qualification certificates/ experience certificates/DOE proof with self-attested. Otherwise, the application will be rejected. Candidates should also indicate the name of the post, postcode in the application.

Candidates applying for more than one post should submit separate applications for each post indicating the name of the post and postcode in each Application applied for.

The last date of receipt of applications is 13.08.2021 at 5.30 P.M.

The Applications received in response to the advertisement will be scrutinized and only shortlisted candidates will be considered for the selection process. Merely fulfilling the requirements laid down in the advertisement will not automatically entitle any candidate to be called for skill, trade test or written test.

The appointment of the selected candidates is subject to being found medically fit as per the requirements of the Institute.

A written skill test/ practical skill test may be conducted and details will be notified in the AIISH website and the eligible candidates will be informed of it in due course.

As per Government of India orders, interviews for posts in Group B & C are dispensed with. The results of the skill test/ written skill test when conducted, will only be qualifying in nature. The final selection for these posts will be based on merit/percentage obtained in the essential qualification.

The competent authority reserves the right to accept or reject any application without assigning any reasons.

The competent authority reserves the right not to fill all or any of the posts mentioned in the advertisement.

Conversing in any form and/or bringing in any influence political or otherwise will be treated as a disqualification for the post.

Interim enquiries and other enquiries will not be attended to.

Candidates are advised to visit our website www.aiishmyore.in for latest updates issued through notifications, instructions, and circulars relating to this recruitment process. No separate communication in this regard will be sent.

Those applications will be summarily rejected at the time of screening of the applications itself. No further correspondences will be entertained in this regard.
CAREER OPPORTUNITIES IN VARIOUS DISCIPLINES

GAIL (India) Limited, a Maharatna PSU and India’s flagship Natural Gas company is integrating all aspects of the Natural Gas value chain (including Exploration & Production, Processing, Transmission, Distribution and Marketing) and its related services. In a rapidly changing scenario, GAIL is spearheading the move to a new era of clean fuel industrialization by creating a quadrilateral of green energy corridors that connect major consumption centres in India with major gas fields, LNG terminals and other cross border gas sourcing points. GAIL is also expanding its business overseas to become a formidable player in the international Market.

GAIL (India) Limited, invites applications from Indian nationals fulfilling the eligibility criteria for filling up following posts as per category wise vacancies (including backlog vacancies) indicated against each post in Table 1 below:

2. TERMS AND CONDITIONS IN RESPECT OF ESSENTIAL QUALIFICATION(S) AND ESSENTIAL EXPERIENCE (As mentioned under relevant column in Table-II)

2.1 Minimum essential educational qualification(s) required shall be as indicated in Table-II against each post.

2.2 Only full time Regular courses will be considered (except CA/ CMA qualification).

2.3 All minimum essential qualification(s) must be from UGC recognized Indian University/ UGC recognized Indian Deemed University or AICTE approved courses from Autonomous Indian Institutions/ concerned statutory council (wherever applicable). Diploma in Engineering qualifications (if applicable) should be recognized by the State Board of Technical Education.

2.4 Minimum percentage of marks in the essential qualification(s) as specified shall be considered as per Institute/ University rules/norms.

2.5 Wherever CGPA/ OGPA/CPI or letter grade in a Degree is awarded, equivalent percentage of marks should be indicated in the application as per norms adopted by the University/ Institute. The candidate should be required to submit documentary proof certificate to this effect from the Institute/ University at the time of Interview, if called for the same.

2.7 Candidates having 05 years B.E/ B. Tech: M. E/ M. Tech, integrated dual degree in engineering in relevant discipline shall also be considered.

2.8 Candidates having 05 years B.E/ B. Tech: M. E/ M. Tech, integrated dual degree in engineering in relevant discipline and two years MBA with specialization in Marketing/ Oil & Gas/ Petroleum & Energy/ Energy & Infrastructure/ International Business shall also be considered for the post of Senior Officer (Marketing).

2.9 Wherever MBA has been mentioned as requirement, apart from MBA, Two years Post Graduate Diploma in Management with specialization in relevant field/ MMS with specialization in relevant field shall also be considered.

2.10 MBA/ PG Diploma in Management/ MMS qualifications where there is a mention of Dual specialization, one of the specializations necessarily needs to be function specific for which the post has been advertised.

2.11 Minimum Essential Post Qualification Executive Experience in State/ Central Government Department(s)/ Organization(s)/ Undertaking(s) and/ or Large Private Sector Organization(s)/ Institution(s)/ Company(ies) of reputed/ Large Law Firm(s) should be as on 05.08.2021. Industrial/ Vocational Training under the post of minimum essential experience criteria to fulfilment of all other eligibility criteria as per the terms and conditions.

3. RELAXATION IN MINIMUM PERCENTAGE OF MARKS IN EDUCATIONAL QUALIFICATIONS

Relaxation in minimum qualifying percentage of marks in essential qualification(s) in respect of SC/ ST and PwBD category candidates has been provided as per following:

3.1 Wherever minimum qualifying percentage of marks have been specified as 85%, relaxed minimum educational qualification(s) percentage in respect of SC, ST and PwBD category candidates is 55%.

3.2 Wherever minimum qualifying percentage of marks have been specified as 80%, relaxed minimum educational qualification(s) percentage in respect of SC, ST and PwBD category candidates is 55%.

3.3 SC/ ST / PwBD category candidates applying against unreserved posts shall be considered under general standard of merit and no relaxation in minimum qualifying percentage of marks in educational qualification shall be available to them.

4. UPPER AGE LIMIT AND AGE RELAXATION

4.1 The Upper Age Limit for various posts as given in Table-II is as on 05.08.2021.

4.2 The upper age is relaxable by 05 years for SC/ST category candidates, 03 years for OBC (NCL) category candidates. It is also relaxable by 10 years for PWD General/ EWS category candidates, 13 years for PwBD OBC(NCL) category candidates and 15 years for PwBD SCST category candidates. The above relaxation in upper age limit is applicable only in respect of posts which are reserved for SC/ST/ OBC/NCL category candidates. Relaxation in age limit shall be applicable for PwBD category candidates irrespective of the fact whether the post is reserved or not, provided the post is identified as reserved for concerned PwBD category candidates. The upper age limit is also relaxable by 05 years for candidates domiciled in the State of Jammu & Kashmir between 01.01.1980 and 31.12.1989.

4.3 SC/ST/OBC (NCL) category candidates applying for posts marked unreserved (UR) posts shall be considered under general standard of merit and no relaxation in upper age limit shall be available to them.

4.4 In case of Ex-servicemen who have put in not less than six months continuous service in the Armed Forces of the Union, they shall be allowed to deduct the period of such service from their actual age, and if the resultant age does not exceed by more than 03 years the maximum age limit prescribed for the posts/services for which a candidate seeks appointment, he/she will be deemed to satisfy the conditions regarding the age limit.

4.5 Maximum upper age of the applicant shall not exceed 56 years including all possible age relaxations.

4.6 Relaxation and concessions for Persons with Benchmark Disabilities (PwBDs) category candidates will be in accordance with the Government directives in
Telegram: HaryanaJobs.in

5 APPLICATION FEE

5.1 At the time of submission of online application, candidates belonging to General, EWS & OBC (NCL) category are required to pay a non-refundable application fee of Rs. 200/- (Rupees Two Hundred only) (excluding applicable Convenience Fee and Taxes).

- The application fee is to be paid by typing or pasting the link in a URL (Uniform Resource Locator) using any browser:
  https://fromlink.evacareers.in/help/gail/india/login
- Thereafter applicants need to select the correct Advertisements Number and click on Proceed Button to pay the requisite application fee. Applicants are required to fill their basic personal details and click on the Terms and Conditions Check Box before clicking on the Pay Now Button. Applicants need to choose their preferred mode of payment such as Credit Card, Debit Card, Net Banking, Paytm, Wallet & UPI etc. to pay the Application Fee, Applicable Convenience Fee and Taxes, if any and over and above the Application Fee will be borne by the Applicant.
- After successful Transaction, applicants need to take note of the Receipt Number, which can be retrieved in the Payment History Page by entering Mobile Number and email id.
- The User Manual for payment of application fees is available at GAIL website (news.gail.co.in). Further, the Receipt Number obtained through payment gateway is to be entered in the online application form in the "Bank Transaction Number" field. The Application fee once deposited/paid will not be allowed to be withdrawn and the application fee once paid will not be refunded on any account nor would this fee be held in reserve for future exams/selection.

5.2 SC/ST/PH category candidates are exempted from payment of application fees. However, for claiming exemption in application fee, SC/ST candidates will have to submit a true copy of SC/ST certificate as applicable, issued by the Competent Authority in the prescribed format and PwBD category candidates claiming exemption in application fee will have to submit in the prescribed format a copy of certificate issued by Competent Authority at the time of further Selection Process.

6 HOW TO APPLY

6.1 CANDIDATES WILL BE REQUIRED TO APPLY ONLINE THROUGH GAIL WEBSITE: www.gailonline.com No other means / mode of application shall be accepted.
- Website will be open from 1100 hrs on 07.07.2021 to 1800 hrs on 05.08.2021.

6.2 Before registering/applying online, candidates are advised to go through detailed instructions related to the application process. The candidate should possess the following and keep the same handy while applying online:
- (i) Valid email ID and mobile no.
- (ii) Receipt Number obtained through payment gateway, if applicable.
- (iii) Scanned copy of self-affixed recent passport size color photograph (3.5X4.5 cm) of the candidate with white background (JPEG/JPG/ BMP format size upto 50KB).
- (iv) After submitting online application, candidate is required to download the Application Form generated by the system with unique registration number. Candidate should put his/her signature at the space provided and keep the form with him/her for future reference.

6.4 Candidates are NOT required to submit hard copy of application form to GAIL at this stage.
- (i) Copy of Receipt Number obtained through payment gateway, if applicable.
- (ii) Print out of the Online Application form with 02 recent passport size photograph (same photograph uploaded on the application form) along with signature on the application form.

6.5 In case the candidate is selected for further Selection Process, he/she has to bring the downloaded application form with all ORIGINAL DOCUMENTS in the order as mentioned below/attached together with ONE SEPARATE SET OF PHOTO COPY of all documents duly SELF-ATTES TED in the same order) at the time of further Selection Process, failing which he/she will not be permitted to appear in the further Selection Process:

- (v) All Certificates/Testimonials in respect of qualifications (all semester/year-wise Marks Sheet, Degree & Diploma certificate starting from matriculation onwards).
- (vi) Documentary proof certificate from the Institute/University (as per norms adopted by University/Institute) indicating equivalent percentage of marks secured in case degree is awarded in CGPA/OGPA or letter grade.
- (vii) For the post of Officer (Laboratory) Proof of having minimum one year experience in the next lower pay scale or next lower equivalent pay scale for candidates working in Government/ Public Sector Undertaking.
- (viii) For the post of Manager (Marketing/Commodity Risk Management)/Sr. Officer (F&A) Associate membership certificate of ICAI/ICMAI for candidates possessing CMA qualification (as applicable). For Manager (Marketing-CRM), proof of having one year experience in the next lower pay Scale or next lower equivalent pay scale for candidates working in Govt./PSUs.
- (ix) Complete and Proper Experience certificates/Documents issued by the Employer in support of experience details mentioned by the candidate in the online Application Form.

Only following types of documentary proofs towards experience will be considered:

I. For Past Employment:

- Experience letter issued by competent and authorized executive of the organization indicating Designation, date of joining including date of relieving the organization by the employee concerned OR
- Appointment letter clearly mentioning the date of joining the organization and also acceptance of resignation letter/applying for leave.

II. For Current Employment:

- Experience letter issued by competent and authorized executive of the organization indicating designation, and date of joining the organization by the employee concerned along with latest pay slip OR
- Appointment letter clearly mentioning the date of joining the organization and Latest Pay Slip along with any of the following optional documents:
  - Identity card issued by current employer
  - Annual increment letter
  - Promotion order/Transfer order/etc.

In the event of absence of appointment letter and latest pay slip, candidate of such candidates shall be liable to be rejected.

(x) In case of experience with Large Private Sector Organization/ Institution /Company of repute /Large Law Firm: Documentary proof towards listing on NSE OR
Group A & B if BSEI proof of having more than 500 employees in the last financial year of proof of having Annual Turnover of more than Rs. 250 crores in the last financial year. Documentary proof of having Annual Turnover of more than Rs. 10 crores in the last financial year for Large Law Firm.

(xc) NCC/Forwading Letter from the employer in case the candidate is employed in Central State Government Department, Central/ State PSUs or Semi Government organization.

(xv) Valid ID Proof: PAN Card/ Voter ID/ Aadhaar Card/ Driving License etc.

Candidates should ensure that they bring all the documents mentioned above to the venue of further Selection Process. In the event of failure of candidate to present any of the required documents as mentioned above, candidature of such candidate shall be liable to be rejected.

6.6 Three copies of the photo (same photograph uploaded on the online application form) should be retained for future use. Candidates are advised not to change their appearances till the recruitment process is complete.

6.7 Before applying for the post, candidates should ensure that he/she fulfills the eligibility criteria and other conditions mentioned in this advertisement. GAIL would be free to reject any application at any stage of the recruitment process, if the candidate is found ineligible for the post for which he/she has applied. The application fee paid by ineligible candidates shall be forfeited. No correspondence shall be entertained in this regard.

For detailed advertisement, eligibility requirements, instructions and for filling the online application form, please visit "Careers" section of GAIL website: www.gailonline.com between 1100 hours on 07.07.2021 to 1800 hours on 05.08.2021.

Any revision, clarification, addendum, corrigendum, time extension, etc. to the above advertisement will be hosted on "Careers" section of GAIL website: www.gailonline.com only and no separate notification shall be issued in the press. Candidates are requested to visit the website regularly to keep themselves updated.

Reg'd Office: GAIL Bhawan, 16, Bishakji Cama Place, New Delhi - 110 066.

Government of India

DEPARTMENT OF ATOMIC ENERGY (DAE)

Bhabha Atomic Research Centre (BARC) Training Schools

Invite

Engineering Graduates and Science Postgraduates

- Who would relish challenges in frontier areas of Science and Technology.
- Who would like to be part of an expanding program of Nuclear Reactors, Accelerators, and Fuel Cycle Technologies.
- Who would enjoy pursuing innovative research in Engineering, Physics, Biosciences or Geology.

To apply for recruitment as Scientific Officers (Group-A) post of Government of India through its academic programs

OCES-2021 and DGFS-2021

**TRAINING SCHEMES AND EMPLOYMENT DESCRIPTION**

1. One-Year Orientation Course for Engineering Graduates and Science Postgraduates for the year 2021-2022 (OCES-2021) conducted at the BARC Training School.

2. Two-Year DAE Graduate Fellowship Scheme for Engineering Graduates and Physics Postgraduates for the years 2021-2023 (DGFS-2021).

**OCES-2021 - One Year Orientation Course for Engineering Graduates & Science Postgraduates starting in December 2021**

The Orientation Course for Engineering Graduates and Science Postgraduates is conducted at the BARC Training Schools situated at BARC, Mumbai, IGCAR, Kalpakkam; NFC, Hyderbad; RRCCAT, Indore; AMD, Hyderabad.

DGFS-2021: Two-Year DAE Graduate Fellowship Scheme for Engineering Graduates and Physics Postgraduate starting in January 2022.

**Eligible Disciplines and orientation of the Training Program at each of the Training Schools. A Trained Scientific Officer (TSO), who scores a minimum of 50% aggregate marks on completion of the Training Program, is appointed as a Scientific Officer in the respective discipline. Successful TSOs will be posted as Scientific Officers in one of the DAE units as follows:**

- **b) Bachelor's Atomic Research Centre (BARC), Mumbai**
- **c) Baroda Atomic Research Centre (BARC), Mumbai**
- **d) Industrial Atomic Research Centre (IARC), Mumbai**
- **e) Atomic Minerals Directorate for Exploration & Research (AMD), Hyderabad**
- **f) Uranium Corporation of India Limited (UCIL), Jaduguda**
- **g) Directorate of Nuclear Power, Kalpakkam**

**These units have their Head Office at the indicated locations. Placement will be at the Head Office or at other facilities of these units located in different parts of India.**

Allocation of a successful OCES TSO to a DAE unit is carried out based on the needs of the DAE units. The Director, BARC Training School reserves the right to place the OCES TSOs in any of its other units also or the Atomic Energy Regulatory Board (AERB).

**Task and Responsibilities**: To complete the one-year course work at the Training School will enable TSOs to Post-Graduate Diploma or could earn them credits towards M.Tech / M.Phil./PhD programs of Bhabha Atomic Research Centre (BARC) to the extent as indicated above. Successful TSOs of OCES-2021 will be held in September, 2022.

**Travel Allowance is not paid for in-coming TSOs.**

**GATE Score**: Candidates will be shortlisted on the basis of a valid GATE Score with minimum cut-off for selected discipline.

**FRT-M is an additional Training Scheme option available to applicants belonging to Mechanical Engineering or Chemical Engineering (codes 21 and 22).**

The selection of the candidates will be carried out by Baroda Atomic Research Centre (BARC), Mumbai and the final selection will be announced on the website of BARC Training School. The final selection will be announced on the website of BARC Training School.

**ELIGIBILITY CRITERIA**

A. Qualifying Degrees and Other Academic Requirements for OCES/DGFS-2021

**B. For OCES-2021 & DGFS-2021**

- **5-year Integrated M.Tech with a minimum of 60% aggregate marks in one of the 9 engineering disciplines (codes 21-25) mentioned in Table-1. Applicants opting to be considered on the basis of a GATE score must have a valid GATE-2020 or GATE-2021 score.**

- **5 year Integrated M.Tech in Electrical Engineering, Mechatronics, Energy and Environmental Engineering, Biomedical Engineering, Biomedical Instrumentation etc. are NOT eligible.**

- **For FRT-M, code 30:** B.E. / B.Tech. / B.Sc. (Engineering) **(5-year Integrated M.Tech in Electrical Engineering or Electronics Engineering with minimum of 60% aggregate marks in qualifying degree).**

- **For the following codes (22) and hence there will not be separate screening test or Selection Interview.**

- **For Fast Reactor Technology-M (FRT-M, code 30):** B.E. / B.Tech. / B.Sc. (Engineering) **(5-year Integrated M.Tech in Electrical Engineering or Electronics Engineering with minimum of 60% aggregate marks in qualifying degree).**

- **For the following codes (23) and hence there will not be separate screening test or Selection Interview.**

- **For Fast Reactor Technology-E (FRT-E, code 31):** B.E. / B.Tech. / B.Sc. (Engineering) **(5-year Integrated M.Tech in Electrical Engineering or Electronics Engineering with minimum of 60% aggregate marks in qualifying degree).**

**Final selection is solely on the basis of performance in Selection Interview, subject to medical fitness.**

Candidates shortlisted for OCES/DGFS-2021 may be considered for direct recruitment in ECL and IPR. Such candidates will be governed by stipendary norms of ECL and IPR and terms and service conditions of ECL and IPR respectively on absorption. A merit list created out of the Selection Interview may also be used to offer admission to M.Tech. / M.Phil. / PhD programs through the Directors of BARC Training School.

Selection Interview of short-listed candidates in all disciplines except Geology will be conducted at the BARC Training School, Mumbai. Interviews in Geology will be held in consultation with the Nuclear Geology Discipline of Bhabha Atomic Research Centre. The interviews of Bhabha Atomic Research Centre will be held in consultation with the Nuclear Geology Discipline of DAE. All candidates appearing for the selection interview will be informed about the interview schedule at least two weeks in advance.

Candidates short-listed for OCES/DGFS-2021 will be informed about the interview schedule at least two weeks in advance.

The final schedule for the Selection Interview will be available on the website of the BARC Training School. The selected candidates will be informed about the criteria for the interview, the time duration of the interview, the date and time of the interview, and the location of the interview. The interview will be held in two sessions: the first session will be held on the day of the Selection Interview, and the second session will be held on the following day. The selected candidates will be informed about the results of the Selection Interview on the website of the BARC Training School. The selected candidates will be informed about the criteria for the interview, the time duration of the interview, the date and time of the interview, and the location of the interview. The interview will be held in two sessions: the first session will be held on the day of the Selection Interview, and the second session will be held on the following day. The selected candidates will be informed about the results of the Selection Interview on the website of the BARC Training School.

This is a ROLLING ADVERTISEMENT. Online applications are invited throughout the year. Candidates are requested to submit their provisional applications mentioning qualifications, experiences and other credentials in the online application portal. However, a sizable number of provisional applications (as decided by the authority) are received in the online application portal. The applicants who have submitted their applications will be given a chance to update their qualifications, experience and other credentials in the online application and submit the final application. A notification to update the applications will be given through the Institute’s website and candidate email fifteen days prior to that cutoff date. All qualifications and experiences will be considered up to the cutoff date. After this date, final applications will be extracted from the application portal for scrutiny and the online portal will be reset for receiving next applications.

ELIGIBILITY CRITERIA

7. General Instructions:-
(a) Applications received prior to the date of publication of this notification and after closing date will not be entertained and will be rejected. IAF will not be responsible for any kind of postal delay.
(b) Pre-scrutiny of the application in terms of age limit, minimum qualification and documents and certificates will be carried out by the respective unit before calling the suitable candidates for the written test / skill / practical / physical test. An application can be rejected by the Board without any intimation, if found incomplete/in as per format.
(c) The centre for examination/ skill / practical / physical test will be intimated to the candidate in due course. The centre may be different from the place to which the application was sent. This is done purely for administrative convenience.
(d) NO TA/DA will be paid to attend the written test / skill / practical / physical test.
(e) Selected candidate will be subject to all India service liability.
(f) Merely fulfilling the basic selection criteria does not automatically entitle a person to be called for test / skill / practical / physical test.
(g) Candidates are to bring original certificates viz. SC/ST/OBC/EWS/PwBD/ESM, educational qualification / technical qualification and experience certificates at the time of the skill / practical / physical test.
(h) There will be simultaneous conduct of test for all categories. The responsibility of deciding the category for which the candidate would like to appear will be of the applicant himself. No separate exam will be conducted for candidates applying for more than one category, if the exams are held on the same day.

8. Covid-19 Instruction:-
(i) To avoid the risk of Covid-19, candidates are advised to follow all instructions/guidelines issued by Central / State Govt. for preventive of Covid-19 from time to time.
(ii) At the entrance any candidate showing complaints of influence like illness (ILI), may not be allowed for the test considering the safety of other persons.

9. The Air Officer Commanding/Station Commander / Commanding Officer of the concerned AF Station has the right to reject any application without assigning any reason. Similarly, respective Command/Unit has the right to change the number of vacancies / reservation status at any AF Station at any time before selection.

4 YEARS OF GST: SIGNIFICANCE AND IMPACT

Studies have found that the introduction of GST and the resultant removal of inter-state barriers resulted in a 20% reduction in the cost of goods. A total of 194 crore e-waybills have been generated since the launch of the system, of which about 40% are for the inter-state transport of goods. The issues faced by small taxpayers, the GST Council simplified the annual returns and its filing was made optional for small taxpayers having turnover up to Rs. 5 crore. Quarterly Return and Monthly Payment scheme has been introduced w.e.f. 01.01.2021 wherein the taxpayers can file their GST returns quarterly instead of monthly, while they are required to pay tax monthly. The Quarterly Return and Monthly Payment Scheme was made operational on April 1, 2021 and is applicable for registered persons having turnover of up to Rs. 5 crore.

Overall, GST rates have been reduced on 450 goods and 80 services. Given that the pre-GST regime, the combined Centre and States rates were more than 31% on most of the items, this reduction marks a significant relief for the taxpayer. Common-use items such as hair oil, toothpaste, and soaps have seen their tax rates come down from 29.3% in the pre-GST era to just 16% under GST. Appliances such as fridges, washing machines, vacuum cleaners, food grinders and mixers, shavers, hair dryers, water heaters, and some gym equipment with a capacity of up to 500 kg and a power rating of 1000 watts have been taxed at 5%. Mobile phones, laptops, and other electronic goods have been taxed at 18%.

Substantial concessions have been extended to the agriculture sector in GST. On fertilisers, the net tax incidence was halved in GST. On agricultural machinery, the tax incidence has come down significantly from about 10% to about 5% to 1%. The pre-GST tax incidence on chemical fertilisers was about 18%. The GST regime imposed a uniform rate of 18% on all types of chemical fertilisers. The integrated rate of tax is applicable on both finished goods and inputs to the extent of the tax paid on the inputs.

The GST system has also simplified the tax structure, making it simpler and more transparent. The new tax regime has also led to an increase in the number of tax filers, with over 10 million new taxpayers registering for GST. The GST system has also helped in the integration of the Indian economy, with states no longer competing with each other for tax revenues.

Digital economy: A leveler or a source of economic inequality

ARTIFICIAL INTELLIGENCE: BENEFITS AND PITFALLS

ability of a computer to imitate human behaviour is actually only the basic function of AI. Machine Learning and Deep Learning are the two subsets of AI. Machine Learning enables systems to make predictions or take decisions or learn from past data or experiences. It works on the algorithms which learn by its own using stored data. It allows computers to “witness” human behaviour through the intake of data and then undergo advanced processes to analyse that data and identify patterns within it. It uses a gigantic quantity of organised and partly organized data so that a tool or model of Machine Learning produces precise result or gives predictions based on that data. Whereas, AI works on all category of data i.e. organized, partly organized and unorganized data. Machine Learning is the link between Data Science and Artificial Intelligence for the very reason that it is a process of learning from the data over time, while AI is the methodology that helps data science in accomplishing the goal of getting results and solution for a specific problem. Machine Learning is the technology which helps in achieving the set goal. Data science is not exactly a subset of Machine Learning but it uses Machine Learning tools to analyze data and make forecasts for the future. Data Science combines tools and methods of Machine Learning with big Data Analytics and Cloud Computing to enable the algorithms for predictions. Data Science is purely an applied application of Machine Learning with full attention and importance on solving real and material world problems.

Benefits of Artificial Intelligence

i) Bright and versatile career opportunities: The amalgamation of Artificial Intelligence, Machine Learning and Deep Learning provides thoughtful path for individuals to make innovations. It also helps in terms of productivity and accuracy which ultimately helps in reshaping the world. We all have heard that AI is ready to replace a lot of jobs that humans do. Yes, it is true. Artificial Intelligence is one of the emerging technologies making its mark in every industry ranging from fashion to finance. It is creating more than 100 million roles in all the major sectors. AI has immense potential to bring significant changes in fields like automobile industry, smart home devices, online customer support, security surveillance, retail, healthcare and many more. Therefore, AI provides a bright and versatile career opportunities. Innovative and operating AI systems not only give you a decent salary but also a dynamic career trajectory. Job profiles can range from Machine Learning Engineer, Software Engineer, Hardware Engineer, Research Engineer, Business Intelligence Developer and even Data Scientists. Big employers like Google, Amazon, and Microsoft hire AI experts. People always think that AI draws its attention only in computer or space related Industries whereas the reality is that Artificial Intelligence has got everything in the bag to stand out from the crowd.

ii) Automation and smart decision making: AI technology has ensured a lot of progress in the field of automation and is cited as one of the most remarkable benefits of modern technology. It has had momentous impact in the field of communications, transportation, consumer products, and service industries. Automation not only concentrates on increasing productivity but also allows more efficient use of raw materials, improved product quality, reduced lead times, and improved safety. AI technology can coordinate data delivery, analyse trends, develop data consistency, provide forecasts, and quantify uncertainties to make the best decisions for the company.

iii) Aiding medical sciences and solving complex problems: AI has made enormous contribution in the field of healthcare. Remote patient monitoring technology, monitoring the progression of contagious diseases, prediction of future effects and outcomes, prompt suggestion for treatments, diagnoses of certain health condition without requiring the patient to visit the hospital are some of the key benefits of AI in medical fields.

iv) Research and data analysis: AI helps in analysing the data in more efficient manner. The technology helps to create predictive models and algorithms needed to less data and understand the impending outcomes of different trends and scenarios. The advanced computing features of AI help in speeding up the processing and analysis of data for research and development.

v) Managing repetitive tasks and ensuring continuity: AI powered robotic automation process helps in removing unnecessary repetition of tasks as well as performing repeated tasks. As risk management heavily relies on data management and analysis, AI-powered tools can help organizations to respond to the risks proactively. AI technology not only helps companies to make critical decisions but also prepares them for any emergency to ensure business continuity.

Pitfalls of Artificial Intelligence

There are two sides to every coin. We use our wisdom to utilize the positive side of any technology for creating a better world. There are many myths and theories that promote the fear of “rise of the robots.” As on date, there is not a single application of AI which can that destroy or dominate humanity. Ultimately, it is a human driven resource made for the benefit of mankind. Nevertheless, the concern remain is as to what will happen if the human quest for AI leads to an AI system so strong that it encompasses the human brains in all reasoning, intellectual and perceptive tasks?

In 1965, British Mathematician and Cryptologist I J Good, rightly pointed out that designing smarter AI systems in itself is a rational and thoughtful task. Discovering and revolutionizing the new technologies like Superintelligence help the society at large to exterminate war, disease, poverty and this is the reason why AI became the biggest and most important human innovation. Such a system could hypothetically experience recursive self-improvement, raising an intelligence explosion leaving human intellect far behind, thus triggering the concern whether such system could intentionally or unintentionally cause great harm to the human civilization. We can only hope that researchers will prepare a counter technology to inhibit possible negative consequences and ensure that humans continue to benefit from AI to their benefit while evading pitfalls.

Most of the researchers working in the AI domain think that any AI is unlikely to imitate complex human emotions like love or hate. Therefore, there is very less possibility for an AI system becoming deliberately compassionate or malicious. Scientists predict two negative scenarios might happen if an AI system is not utilized properly.

i) Devastation: Autonomous weapons are artificial intelligence systems and their aim is to terminate objects they are programmed to kill. If it is given in the hands of wrong persons, these weapons could easily cause mass fatalities. To ensure greater efficacy, such weapons should be designed to be extremely difficult to simply turn them off, causing an inadvertent failure. This is one that is present even in narrow AI, but grows as the level of AI increases.

ii) High expectation, low results: AI are generally designed for beneficial tasks but it cannot be guaranteed that the system completely achieves its goals or does not work contrary to its original objective. This can happen if we fail to fully align the AI’s goals with ours. For example, if you ask an intelligent car to take you to the railway station as fast as possible, it might get you there in no time but may cause destruction on the way. SIX YEARS OF DIGITAL INDIA

way, with 336.34 lakh registrations and over 169 crore transactions.

11. BHIM

Bharat Interface for Money (BHM) is an app that makes payment transactions simple, easy and quick using Unified Payments Interface (UPI). It enables direct bank-to-bank payments instantly and collection of money using a mobile number, payment address, or QR code. Pioneered and developed by National Payments Corporation of India (NPCI), BHIM was launched in 2016 to bring in financial inclusion to the nation and a digitally empowered society. BHIM is a unique payment solution which can be used without internet as well. One may dial ‘999 from any phone and avail the same features of BHIM on their mobile screen. You can also register for BHIM using ‘999. Currently, BHIM is available in 20 languages.

12. SWAYAM

SWAYAM (Study Webs of Active-learning for Young Aspiring Minds) as a platform is unique in many ways and the salient features make it all the more desirable among the students as well as other target groups. Over 2,000 courses (school, vocational, undergraduate, postgraduate, Engineering, and other professional courses) delivered through SWAYAM are available free to the learners. The platform gives learners access to best-in-class classes of instructors, prototyped exams, weekly assignments, video lectures, specially prepared reading material that can be downloaded, printed self-assessment tests and quizzes, and offers an online discussion forum for clearing the doubts. Over one lakh learners have successfully obtained certificates through SWAYAM.

13. e-NAM

National Agriculture Market (e-NAM) is a pan-India electronic trading platform which networks the existing APMC (Agriculture Produce Marketing Committee) mandis to create a unified national market for agricultural commodities. The e-NAM Portal provides a single window service for all APMC-related information and services. This includes commodity details and prices, buy and sell trade offers and provision to respond to trade offers. While material flow (agriculture produce) continues to happen through mandis, an online market reduces transaction costs and information asymmetry. 1,660 core farmers, 1.5 lakh traders, 87,000 commission agents and 2,000 FFOs are onboard e-NAM.

14. DIKSHA

An initiative of NCERT and Ministry of Education, DIKSHA (Digital Infrastructure for Knowledge Sharing) is a national platform for school education. Launched in 2017, DIKSHA has since been adopted by 36 States/UTs as well as CBSE, NCERT, and SCERTs and by scores of teachers and learners. DIKSHA currently supports over 18 languages and also offers content for the hearing-impaired in sign language and the visually-impaired in Digital Accessible Information System (DAISY). In the context of COVID-19-related disruption of schooling, DIKSHA remains in place for all States/UTs to enable learning and education at home through innovative State programmes.

15. GOVERNMENT E-MARKETPLACE

Government e-Marketplace (GeM) is single window solution for online procurement of common use Goods & Services required by various Government Departments/ Organisations/ PSU’s. GeM aims to enhance transparency, efficiency and speed in public procurement. It also provides the tools for direct purchase, e-bidding and reverse e-auction to facilitate the government users to achieve the best value for the money. The portal offers online registration facilities for all stakeholders namely Government users, product sellers and service providers.

16. NATIONAL COMMON INFRA CARD

NCM is an offline contactless chip card which provides an easy, convenient, and fast method of digital payment to the citizens for all online low value transactions including public transport and retail. More than 2.66 crore NCM debit cards have been issued till April 2021.

17. PRODUCTION LINKED INCENTIVE

India could be the next smartphone capital of the world, estimated to have 600 million users in the next two years. In such a promising scenario, manufacturing of an entire mobile ecosystem will help the country on the global production map along with growing jobs in the near future. Approved with financial outlay of Rs. 12,195 crore, Production Linked Incentive (PLI) scheme for Telecom and Networking products came into effect from April 1, 2021.

19. KOHYA PAYA

The Kohya Paya portal is a citizen-based website to exchange information on missing and found children. It has been developed by the Ministry of Women and Child Development and the Department of Electronics and Information Technology (Deity). The website is an enabling platform, where citizens can report missing children, as well as sightings of their whereabouts without wasting much time. The ‘Found’ children can also be reported on this web portal. The reporting can be done through text, photographs, videos and other means of transmitting and uploading information to the site.

20. PM-DISHA

The Pradhan Mantri Gramin Digital Sakshat Arthiyen (PMDISHA) is a dynamic and integrated platform for digital literacy awareness, education and capacity programmes that will help rural communities fully participate in the global digital economy. It is the world’s largest digital literacy programme to impart basic computer training to 6 crore citizens from rural areas across States/UTs. The programme also trains them to operate digital access devices (tablets, smartphones) and undertake digital payments.

CAREER IN CINEMATOGRAPHY

At present there is no specialized course for DIT from any recognized institute. Private film school Whistling Woods International (WWI), Mumbai, may be adding the inputs about DIT in their curriculum, anytime soon in their coming academic year. For most who may not have Cinematography studies as a background, it is learnt on the job as an intern to a team of Colorists in a post-production house or by picking up knowledge and equipment being a Camera Assistant/Associate. In these regards, Sidd Meier, owner and colorist of Bridge Postworks, has a dedicated team of DITs who go on shoots and some of them later work as Colorists for the DI of the same asset. As Sidd Meier says, they are open to taking interns and assistants and full-fledged DI’s who have it in them to make a mark.

Along with Sidd, there is Neel Sadowekar, who is in the business for almost 10 years, working as a consultant and a DI on 60 features, providing data and workflow management services to the Indian film community. It is not necessary that only a cinematography student/ professional can work as a DI. It can even be a video editor or a sound person too, combining their respective editing and audio skills and knowledge of working on NL EditSound software systems. One should basically be in love with filmmaking and have an interest in this sort of work. According to Neel Sadowekar, he has given alternate career openings to many fresh emerging graduates of FTII and VWI. So the best option after your Graduation, is to learn filmmaking and your specializing craft (a must) from a reputed institute like FTII, Pune or GRFTI, Kolkata and other regional and private institutes. As Neel adds, this background helps in being a DIT and get good introduction to the workflow, make contacts amongst producers, travel the world and settle down as DOP/Editor or Camera assistant for a job that upon remarkable career option suited so well to the current ever-changing digital cinema requirements.

(Trivias are meant for Entertainment and Associate Professor of Cinematography at FTII, Pune)

EN 17/59
NATIONAL
- Piyush Goyal appointed leader of House in Rajya Sabha
  Union Minister Piyush Goyal has become the Leader of the House in the Rajya Sabha. He replaced Thawarchand Gehlot, who is now the Governor of Kamataka. Piyush Goyal had been deputy leader of Rajya Sabha under Mr Gehlot.

- AI - powered app for Central Govt grievances
  Defence Minister Rajnath Singh launched an Artificial Intelligence-powered grievance management application in New Delhi on July 15. Jointly developed by Ministry of Defence and IIT-Kanpur, the application will automatically handle and analyse the complaints of the people, thereby reducing human intervention, saving time and bringing more transparency in their disposal. This is the first AI based grievance management system to be adopted by the Central Government. Given that lakhs of complaints are received on CPGRAMS portal of DARPG, this application will have great use in understanding the nature of complaints, geographies from where they emanate and policy changes which can be introduced to create systemic improvements to address grievances.

- NEET (UG) - Urdu, Punjabi, Malayalam added to language options
  For the first time, aspirants will be able to write the Under Graduate National Eligibility Cum Entrance Test (NEET), in Urdu, Punjabi and Malayalam, taking the number of languages eligible for writing NEET to 13. Earlier, students had the option to choose from Hindi, Bengali, English, Odia, Gujarati, Marathi, Telugu, Kannada, Tamil, and English. The decision in line with Prime Minister Narendra Modi’s vision of promoting regional languages under National Education Policy 2020.

- School Innovation Ambassador Training Program launched
  Education Minister Dharmendra Pradhan and Tribal Affairs Minister Arjun Munda jointly launched the School Innovation Ambassador Training Program. The programme, launched on July 16, aims to train 50,000 school teachers on innovation, entrepreneurship, design thinking, product development and idea generation. The program has been designed by the Innovation Cell of the Ministry of Education and AICTE for School Teachers.

- I&B Minister expresses grief over photojournalist’s demise
  Union Information and Broadcasting Minister Anurag Thakur has expressed grief over the death of Pulitzer-winning Indian photojournalist Danish Siddiqui.”
  “Danish Siddiqui leaves behind an extraordinary body of work,” Thakur said. Siddiqui was killed in clashes in Spin Boldak district of Kandahar city in Afghanistan while on a reporting assignment embedded with the Afghan Special Forces.

- MoS I&B visits Ministry’s media units in Chennai
  Minister of State for Information and Broadcasting U Murugan interacted with the heads of Ministry’s media units in Chennai. The aim was to review the media units’ performance and to encourage them. The regional team of Publications Division also met with the Minister and gave him an overview of the department’s operations and performance.

ECONOMY
- IFSCA unified regulator of financial services under IFSCA
  International Financial Services Centres Authority (IFSCA) has been established as a unified regulator to develop and regulate financial products, financial services and financial institutions in the International Financial Services Centres (IFSC) in India. The Finance Ministry said that since development in medicinal science and technology will support extending the lifespan and longevity of this generation, such demographic change will throw open new challenges and opportunities in the areas of wealth management, health, Insurance, and other Investment products.

- India targets Rs 100 billion ‘Blue Economy’
  India aims to achieve the Rs 100 billion ‘Blue Economy’ through its Deep Ocean Mission (DOM) and ocean resources in the coming years. According to Science and Technology Minister Dr Jitendra Singh, Deep Ocean Mission will also have far-reaching benefits for the common man as it could help in providing clean drinking water and explore the avenues of desalination of water as well as extracting minerals from the ocean bed. Deep Ocean Mission planned by the Ministry of Earth Sciences will be carried out in collaboration with Indian Space Research Organisation. It will be a major step in the direction of integrating and bringing together the efforts of the different streams of science operating under different Ministries in the government.

- RBI’s Retail Direct facility for investment in Govt. Securities
  The RBI Retail Direct facility launched on July 13, 2021 is a one-stop solution to facilitate Government Investment in Government Securities, G-Secs by individual investors. Under this facility, retail investors will have the facility to open and maintain the Retail Direct Gilt, RDG Account with RBI. The RDG account can be opened through an online portal provided for the purpose of the scheme.

INTERNATIONAL
- Sher Bahadur Deuba sworn in as Nepal's PM
  Nepal Congress leader Sher Bahadur Deuba has been sworn in as Nepal’s Prime Minister. He was earlier the leader of the opposition in the outgoing KP Sharma Oli-led government. Deuba was elected the new PM after country’s apex court reinstated the Parliament dissolved by caretaker PM KP Sharma Oli in May. Deuba had claimed to have the support of 149 members of the 275-seat lower house. This is the fifth time that he is returning to power as the Prime Minister of the Himalayan Nation.

- 15 EU countries recognise COVISEHL for travel
  World Health Organization (WHO) Chief Scientist Soumya Swaminathan has said that 15 countries in the European Union (EU) now recognise COVISEHL vaccine for travelers. The countries are Germany, Slovenia, Austria, Switzerland, Greece, Iceland, Ireland, Spain, Belgium, Bulgaria, Finland, Hungary, Latvia, Sweden, and the Netherlands.

- BHIM-UPI launched in Bhutan
  India’s digital payment application, Bharat Interface for Money (BHIM), has been launched in Bhutan. In a statement, the Finance Ministry said that Bhutan is the first country, in India’s immediate neighbourhood, to use the BHIM app for mobile-based payments and “to adopt Unified Payments Interface (UPI) standards for its QR deployment.” BHIM app works through UPI, a system that powers multiple bank accounts into a single mobile application.

SPORTS
- Italy crowned Euro Cup 2020 champions
  Italy lifted their second European Championship trophy after they defeated England 3-2 in penalty shoot-out in the Euro 2020 final at Wembley Stadium in London. The match had ended 1-1 after extra time. Italian goalkeeper Gianluigi Donnarumma saved penalties in a row after England’s Marcus Rashford hit the post. Federico Bernardeschi, Leonardo Bonucci and Domenico Berardi all scored for the Azzurri as it was the first final to be decided on penalties since Czechoslovakia beat West Germany in 1976.

- Argentina beat Brazil 1-0 to win Copa America tournament
  A golden minute 1-0 victory brought a major international trophy as it defeated Brazil 1-0 in the Copa America final. Argentina’s winning goal at the Maracana Stadium in Rio de Janeiro came as Angel Di Maria scored the only goal in the 22 minute. Argentina’s win is a particular triumph for Barcelona striker Lionel Messi, who picked up his first ever title in a blue and white shirt after more than 10 years of club and individual honours.

- Novak Djokovic clinches 6th Wimbledon title
  Novak Djokovic clinched his sixth title at Wimbledon beating Italian seventh seed Matteo Berrettini 6-7(4), 6-4, 6-4. The win earned the Serb a 20th Grand Slam title, equalling the 20 Grand Slam record haul held by Switzerland’s Roger Federer and Rafael Nadal of Spain. Djokovic has now won all three Grand Slam Men’s titles in this year, having already won the Australian Open and the French Open. In Women’s Singles, Australian top seed Ashleigh Barty won the title, defeating eighth seed Karolina Pliskova of Czech Republic 6-3, 6-3. In Mixed Doubles, US pair Nikola Mektic and Mate Pavic won the Men’s Doubles final. Elise Mertens of Belgium and Hsieh Su-wei of Taiwan clinched Women’s Doubles title. American Sam Querrey lost the Boys’ Singles title. Ace Mittelget Del Olmo became the first Spanish player to win the Girls’ Singles title at Wimbledon.

- Former cricketer Yashpal Sharma passes away
  Former cricketer Yashpal Sharma passed away following a cardiac arrest in New Delhi. He was 66. Sharma was a member of the 1983 World Cup-winning team. In a career spanning from 1979 to 1985, he played 57 Tests for India and scored 1,606 runs with two centuries and nine half-centuries, and had no ducks.
