EXPORTS OF AGRICULTURAL PRODUCTS SHOW IMPRESSIVE GROWTH

Sandip Das

The challenges posed by the COVID19 pandemic resulted in the disruption of supply chains of various commodities across the globe. Despite this, India’s export of agricultural and processed food, including cereals, meat, dairy and poultry products, marine products, and spices, registered a significant increase in the first five months of the current financial year (April-August, 2021-22). The Agriculture Export Policy unveiled in 2018, which entailed state-specific policy implementation through a cluster-based approach, resulted in the upswing in the export of India’s agricultural products.

From April 2020, when the COVID19 pandemic started to spread in India, the farming activities were adversely impacted because of supply chain disruptions caused by restrictions on movement to contain the spread of the virus. There were disruptions in the movement of farm inputs, including farm machinery and agricultural labor. However, the prudent policy adopted by the government keeping most of the agricultural activities outside the purview of lockdown measures led to bumper food grain and horticultural crops production.

According to the Economic Survey (2020-21), the agriculture and allied sectors was the sole bright spot amid the slide in performance of other sectors, clocking a growth rate of 3.4% at constant prices during 2020-21. Against all adversities, continuous supply of agricultural commodities, especially staples like rice, wheat, pulses, and vegetables, has been maintained, thereby enabling food security. While most countries were stockpiling agricultural products for emergency use amid COVID-19 induced uncertainty, India’s exports of agricultural food products continued uninterrupted. The exports of agriculture and allied products, including marine and plantation products, rose by more than 17% during 2020-21 to USD 41.25 billion compared to the previous fiscal. A significant chunk of India’s agricultural products exports was to the United States, China, Bangladesh, United Arab Emirates, Vietnam, Saudi Arabia, Indonesia, Nepal, Iran, and Malaysia.

The growth trend in agricultural and processed food products exports continues in the current fiscal with a hike of 21.8% from April to August of 2021-22 compared to the corresponding period of 2020-21.

On 29 August 2019, Prime Minister Shri Narendra Modi launched the Fit India Movement to promote physical fitness as a way of life. Fit India Movement aims at behavioral changes - from a sedentary lifestyle to a physically active day-to-day living. Fit India would be a success only when it becomes a people’s movement. ‘How to Live’ ought to be the first pillar of formal education. This involves teaching and practicing the art of taking care of one’s body and health daily. Schools have to be the first formal institution after home where physical fitness is taught and practiced. In the above background, the Fit India Mission encourages schools to increase physical activities and physical education to make a fitter, healthier, and happier India.

Earlier, physical education (PE) was generally understood as physical activities in school time table that included some free-hand exercises, games, sports, racing, swimming, etc. With time, the subject has changed dramatically. It has expanded from school settings to non-school settings and from school-aged children to people of all ages. Moreover, the COVID-19 induced awareness of the importance of immunity and mental well-being has brought about a fitness boom and the wellness movement.

Physical education now involves a holistic approach to improving students’ physical competence and knowledge of movement and safety and their ability to perform a wide range of activities associated with developing an active and healthy lifestyle. There is a wide range of activities associated with physical education, including sports, dance, and fitness training. Moreover, physical education helps develop and maintain confidence, well-being, and

2020-21. The other products categories - marine products, spices, tea, coffee, and tobacco also witnessed a significant spike in exports during April-August 2021.

According to the Quick Estimates released by the Directorate General of Commercial Intelligence and Statistics (DGCI&S), the overall export by the Agricultural and Processed Food Products Export Development Authority (APEDA) witnessed 21.8% growth in terms of USD during April-August 2021 over the same period of the previous year. The overall export of APEDA products increased from USD 6485 million in April-August 2020 to USD 7902 million in April-August 2021. Marine products and spices exported rose to $3 158 million (49.8%); Spices $1 687 million (9%); coffee $377 million (19.78%); tea $2 966 million (5.17%); and tobacco $386 million (17.12%) during April-August 2021 compared to the same period last fiscal.

The positive exports was achieved notwithstanding COVID-19 restrictions. The significant spike in agri-exports is a testimony of the government's commitment to increase farmers' income by boosting exports of the country's agricultural and processed food products. The massive jump in exports of agricultural and processed food products during the first five months of the current fiscal is in continuation to growth in exports witnessed in the financial year 2020-21. According to WTO's trade map, with the total agri-exports of USD 37 billion in 2019, India is ranked at ninth position in the world ranking for agri-exports.

The rice export, which received a positive growth of 13.7%, increased from USD 3359 million in April-August 2020 to USD 3820 million in April-August 2021. As per Quick Estimates, while the exports of fresh fruits and vegetables registered a 6.1% growth in terms of USD, the export of processed food products like cereals and miscellaneous processed items reported a growth of 41.9%.

In April-August 2021, India exported fresh fruits and vegetables worth USD 1013 million, which rose to USD 1075 million in April-August 2021-22. While India achieved a significant 142.1% increase in the export of cereals, the export of meat, dairy, and poultry products witnessed an increase of 31.1 percent in the first five months of the current fiscal (2021-22).

The export of other cereals increased from USD 157 million in April-August 2020 to USD 379 million in April-August 2021. The export of meat, dairy and poultry products increased from USD 1185 million in April-August 2020 to USD 1554 million in April-August 2021. The cashew export rose from USD 144 million in April-August 2020 to USD 185 million in April-August 2021.

The positive trend can be largely attributed to the various initiatives taken by the APEDA for the promotion of agricultural and processed food products. The APEDA has been organizing B2B exhibitions in different countries, exploring new potential markets through product-specific and general marketing campaigns.

To promote the export of products having Indian GI (Geographical Indications), the APEDA has taken several other initiatives such as virtual Buyer-Seller Meets on agricultural and food products with the UAE, and similar meets on GI products, including a collaboration with the USA. APEDA also continues to conduct virtual Buyer-Seller Meets with potential importing countries to popularize major agricultural GI products.

The Government unveiled the Agriculture Export Policy in December 2018 to harness the export potential of Indian agriculture through suitable policy instruments, make India a global power in agriculture, and raise farmers' income. The key objectives of the export policy were:

- To diversify export baskets and destinations and boost high-value and value-added agricultural exports, including focusing on perishables.
- To promote novel, indigenous, organic, ethnic, traditional, and non-traditional agri products exports.
- To provide an institutional mechanism for pursuing market access, tackling barriers, and dealing with sanitary and phytosanitary issues.
- To strive to double India's share in world agri-exports by integrating with global value chains.
- Enable farmers to benefit from export opportunities in overseas markets.

Eighteen states, including Maharashtra, Kerala, Nagaland, Tamil Nadu, Assam, Punjab, and Karnataka are in the process of or have finalized their specific action plan to implement the agri export policy. Forty-six unique product clusters have been identified for export promotion, and 29 cluster-level committees have been formed under the agriculture export policy. Around 106 products have been identified from 103 districts for harnessing export potentials.

During 2020-21, the exports took place from several clusters for the first time. For instance, the export of fresh vegetables and mangoes from Varanasi and black rice from Chandauli has taken place for the first time, reflecting growing farmers' satisfaction. Exports from other clusters -- oranges from Nagpur, bananas from Theni and Anantapur, mangoes from Lucknow, etc. took place in the last fiscal.

With solid policy thrust, India's exports of agricultural and allied sector products are poised for sharp spikes in the current fiscal, which is expected to boost farmers' income.

A SPECIAL STRIKE FORCE TO COUNTER TERRORISM
INDIA’S BLACK CATS CELEBRATE THEIR RAISING DAY

In India, there are seven Central Armed Police Forces (CAPFs) namely Assam Rifles, Border Security Force (BSF), Central Industrial Security Force (CISF), Central Reserve Police Force (CRPF), Indo-Tibetan Border Police (ITBP), National Security Guard (NSG), and Sashastra Seema Bal (SSB) under the Ministry of Home Affairs. The MHA deals with all matters relating to CAPFs, including their deployment. The NSG is celebrating its 37th raising day on October 18.

What is the National Security Guard?
The Union Cabinet in 1984 took a decision to create a Federal Contingency Force comprising of personnel who are highly motivated, specially equipped and well trained to tackle the various manifestations of terrorism. In June 1984, a nucleus consisting of the Director-General of NSG and other essential elements were sanctioned and steps were initiated to raise the Force. A bill for the creation of this Organization was introduced in the Parliament in August 1986 and it received the assent of the President on September 22, 1986.

EN Explains
The need for creating a special force for executing surgical operations based on tactical intelligence was felt in India due to recurring terror threats fuelled from across the border. NSG was conceptualized and created after studying and analyzing Special Forces like SAS in the United Kingdom, GIGN in France, GSG-9 in Germany, Shirat-matkal in Israel and DELTA in the USA. Accordingly, NSG was raised on 16th October, 1985 as a Federal Contingency Force under the MHA. This strike force is a unique amalgam of selected personnel from the Army, the CAPFs and the State Police Forces. NSG is a 100% departmental Force with 53% of its manpower drawn from the Army and 47% from CAPFs/State Police Organizations.

NSG’s National Bomb Data Centre

NSG’s National Bomb Data Centre was inaugurated in 2006 to meet the changing nature of terror threats and to provide a technical arm to the NSG in its role of monitoring, recording and analysing all bombing incidents in the country. NSG is one of its kind institution in the country, which not only monitors all bombing related incidents, within the country, but also records and analyses the salient ones across the world to draw out appropriate lessons in their own context. This knowledge is then passed on to shared with the relevant security agencies on as required basis. It also compiles and disseminates periodic statistical data and analytical information on terrorist bombing activities and carries out limited research and innovation in the field of bomb disposal.

Govt to set up AIIMS in every state, medical college in every district
Prime Minister Narendra Modi dedicated to the nation 35 Pressure Swing Adsorption (PSA) Oxygen Plants established under PM CARES, across 35 States and Union Territories, in an event held at AIIMS Rishikesh, Uttarakhand on October 07. With this, all districts of the country will now have commissioned PSA Oxygen Plants. The PM said that India faced the challenge of Covid-19 valiantly and is prepared to meet the future challenges of the disease. He further noted that till 6-7 years ago, only a few states had the facility of AIIMS, work is in progress to set up AIIMS in every state. We are moving fast from 24 AIIMS to build a strong network of 22 AIIMS. The government also aims to have at least one medical college in every district of the country.

Cabinet approves setting up of 7 PM MTRA Parks
The Union Cabinet has approved the setting up of 7 Mega Integrated Textile Region and Apparel (PM MTRA) Parks with a total outlay of 4,445 crore rupees over the next five years. The move is inspired by the Five-Five vision of Prime Minister Narendra Modi which is Farm to Fibre to Factory to Fashion to Foreign. PM MTRA Park will be developed by a Special Purpose Vehicle which will be owned by State Government and the Government of India in a Public-Private Partnership mode. The master developer will not only develop the Industrial Park, but also maintain it during the concession period. The SPV, in which the State Government has a majority ownership, will be entitled to receive a part of the lease rental from the enterprises set up in it. The SPV will also be able to use that for further expansion of the textiles industry in the area. The Union Government will also fund a sum of 300 crore rupees for each PM MTRA Park to incentivize manufacturing units to get established.

75 exclusive tech hubs for SC, ST to be set up across India
Union Minister for Science and Technology Dr Jitendra Singh has said that the government will set up 75 exclusive IT and biotechnology and innovation (STI) Hubs in different parts of the country. These hubs will be exclusively for Scheduled Castes (SCs) and Scheduled Tribes (STs) and will not only promote scientific talent, but also contribute to socio-economic development of these communities. In the last two years, 20 STI Hubs have already been established which will directly benefit a population of 20 thousand SC and ST through various interventions.

Children orphaned by COVID to get health, educational, financial assistance
The government has issued guidelines for PM Cares for Children Scheme. The objective of the scheme is to ensure comprehensive care and protection of children who lost their parents to COVID pandemic, in a sustained manner, enable their well-being through health insurance, empower them through education, and equip them for self-sufficient existence with financial support. The scheme provides for support to these children through convergent approach, gap funding for ensuring education, health, monthly stipend from the age of 18 and lump sum amount of ten lakh rupees on attaining 23 years of age.

Comprehensive Handicrafts Cluster Development Scheme to continue till March 2026
The Ministry of Textiles has approved continuation of Comprehensive Handicrafts Cluster Development Scheme with a total outlay of 160 crore rupees. The scheme will continue up to March 2026. Infrastructural support, market access, design and technology upgradation support will be provided to handicrafts artisans under this scheme. Comprehensive Handicrafts Cluster Development Scheme aims to create world-class infrastructure that caters to the business needs of the local artisans and small and medium-sized enterprises to boost production and export.

Power Ministry promulgates Electricity Rules 2021
The Power Ministry has promulgated the Electricity (Transmission System Planning, Development and Recovery of Inter-State Transmission Charges) Rules, 2021. It is a step towards the development of the Transmission System planning, towards giving power sector utilities easier access to the electricity transmission network across the country. At present, generating companies apply for long-term access based on their supply tie-ups, while medium-term and short-term transmission access is acquired within the available margins. Based on Long Term Access application, incremental transmission capacity is added.

WHO recommends first anti-Malaria vaccine
In a historic move, the World Health Organization (WHO) has endorsed the first anti-malaria vaccine. WHO said it is recommend the widespread use of malaria vaccine among children in sub-Saharan Africa and in other regions with moderate to high malaria transmission. WHO Director-General Tedros Adhanom Ghebreyesus said, the long-awaited malaria vaccine for children is a breakthrough for science, child health and malaria control.

Travellers from UK to undergo mandatory quarantine in India
India has made it mandatory for UK nationals arriving in the country to undergo quarantine. All such persons arriving in India, irrespective of their vaccination status, have to undertake the mandatory quarantine test within 72 hours before travel and on arrival at the airport. They will also have to undertake the RT-PCR test on day-8 after arrival and undergo mandatory quarantine at home or in the destination address for 10 days after arrival in India. The decision came after the United Kingdom announced new travel rules which state that Indian travellers, even those who have received both doses of the Covishield vaccine, will be considered unvaccinated.

Russian team to make world's first movie in orbit
A Russian actor and a director rocketed to space on a mission to make the world’s first movie in orbit, a project the Kremlin said will help the nation’s space glory. Actor Yulia Peresild and director Klim Shipenko blasted off for the International Space Station in a Russian Soyuz spacecraft together with cosmonaut Anton Shkaplerov, a veteran of three space missions. Their Soyuz MS-19 lifted off on October 6 from the Russian space launch facility in Baikonur, Kazakhstan and arrived at the station after about 3½ hours.

Mody’s upgrades India’s sovereign rating to Stable from Negative
International ratings agency Moody’s has upgraded the outlook on India’s sovereign from Negative to Stable. The agency said, “Upgrading the outlook, Moody’s cited broadening of the economic recovery and receding financial sector risks. The agency noticed that rising vaccinations have mitigated the downside risks to growth from subsequent coronavirus infection waves. Though, the rating agency retained India at B3, reflecting its modest investment grade rating, but it said that the decision to change the outlook to stable comes as solvency in the financial system has strengthened.
