PUBLIC ACCOUNTS COMMITTEE
ITS ROLE AND FUNCTIONS

Dr Rup Narayan Das

The Public Accounts Committee (PAC) which was set up in 1821 in India is commemorating its centenary this year. It is the oldest Parliamentary Committee in the country. The fact is that it has continued its existence all those years in spite of creation of a number of other Parliamentary Committees including the Departmental Related Standing Committees in subsequent years speaks of its continued relevance in our Parliamentary system.

The rationale behind the Public Accounts Committee can be found in Article 215 of the Constitution which provides that no tax can be levied or collected except by authority of law. Further, Article 216(1) of the Constitution envisages that no money out of the Consolidated Fund of India or the Consolidated Fund of a State shall be appropriated except in accordance with law and for the purposes and manner provided in the Constitution. To put simply, no money can be drawn or spent by the government without prior approval by Parliament or the legislature of the State.

The role and relevance of the Committee is to scrutinize the expenditure of various departments of the government and make specific appropriation for this purpose under different heads. Financial sanctions provided by the Committee serve as a deterrent to the squandering of public funds by the Ministries and it is the prerogative of Parliament to ensure that the sanctioned funds have been spent prudently, truthfully and according to the estimates. However, in view of its size and complexity of state activities coupled with death of time at its disposal, it is not possible for Parliament to scrutinize, if the sum approved has been utilized properly or not.

In absence of such scrutiny and control over the public expenditure, the recommendations of the Public Accounts Committee, the Estimates Committee and the Public Undertakings Committee are important as they are the only means by which the Union Government and the State Governments can be held accountable to the nation.

CAREERS IN OPHTHALMOLOGY
THE SCIENCE OF EYES

Nidhi Prasad

Eyes not only perform the major function of sight but also perform various other tasks such as protecting the brain and controlling body movements. Conversely, they are also believed to be the mirror of a person’s soul. Ophthalmology is a healthcare profession of maintaining vision.

WHAT IS OPHTHALMOLOGY?

Ophthalmology is a medical branch which deals with the diagnosis and treatment of eye conditions. The term ophthalmology comes from the Greek language, ophthalmos means “eye” and logos means “study.” It handles both medical and surgical solution of the diseases related to the physiology and anatomy of the human eye.

WHO IS AN OPHTHALMOLOGIST?

An ophthalmologist is a doctor specializing in the diagnosis and treatment of eye disorders. An ophthalmologist differs from other doctors and specialists depending on their level of education and training that they need. There are different types of eye care professionals: optometrists, ophthalmologists and there is a third “D” among eye care providers: the optician.

Optometrist: Optometrists examine eyes for both vision and health problems, and correct refractive errors by prescribing glasses and contact lenses. Some optometrists also practice low vision care and vision therapy. They do everything from prescribing glasses or contacts for patients, diagnosing eye problems and diseases. Optometrists may also participate in your pre- and post-operative care if you have eye surgery performed by an ophthalmologist.

Ophthalmologist: An ophthalmologist is a medical doctor (MD) who specializes in eye and vision care. Ophthalmologists are trained to perform eye exams, diagnose and treat diseases, prescribe medications and perform eye surgery. They also write prescriptions for glasses and contact lenses.

Optician: Opticians are trained to design, verify and fit eyeglass lenses and frames, contact lenses, and other devices to correct eyeglasses. They use prescriptions supplied by ophthalmologists or optometrists, but do not test vision or write prescriptions for visual correction. Opticians are not permitted to diagnose or treat eye diseases.

If your eyes are healthy and don’t require specialised medical or surgical treatment you should

India witnessed the triumph of science, enterprise and collective effort of 1.3 billion Indians when the country achieved the landmark milestone of administering 100 crore COVID-19 vaccines in one of the world’s largest and fastest vaccination drives.

The journey of administering 100 crore ‘Made in India’ vaccines - Covaxin and Covishield - to the citizens of India started on January 16, 2021 under the leadership of Hon’ble Prime Minister Shri Narendra Modi. Since the dawn of the pandemic, India has shown its commitment to protecting its citizens by taking on this arduous and formidable task involving enormous resources, untold support of the State/UTs, unflinching efforts of Health Care Workers, Frontline Workers and proactive participation of all stakeholders.

Immunisation programme was being implemented in India, as in other countries, in a phased manner to cover the healthcare providers, frontline workers and the most vulnerable. 100 crore vaccine doses is an unprecedented accomplishment, and the world applauds India. Let’s take a look at the journey of India’s vaccination achievement. Here are the highlights:

26 November, 2020: The Government of India announced the third stimulus package of Rs. 900 Crore for the Mission COVID-19 Vaccination - The Indian COVID-19 Vaccine Development Mission. This grant was to be provided to the Department of Biotechnology (DBT) for the Research & Development of Indian COVID-19 vaccines. The important objectives of the fund were accelerating the clinical & developmental testing of COVID-19 vaccine candidates that were currently in clinical stages or ready to enter the clinical stage of development, establishing clinical trial sites, and strengthening the existing immunology laboratories, central laboratories and suitable facilities for animal studies, production facilities and other testing facilities to support COVID-19 vaccine development. The other important objective was to support the development of common harmonized protocols, training, data management systems, regulatory submissions, internal and external quality management systems and accreditation.

3 January, 2021: Drugs Controller General of India (DCGI) granted approval to vaccines of Serum Institute India (Covishield) and Bharat Biotech (Covaxin).

16 January, 2021: Prime Minister Narendra Modi launched India’s first phase of COVID-19 vaccination drive. In the first phase of the drive, Health Care Workers were prioritised.

2 February, 2021: Vaccination of the Frontline Workers (FLWs) started.

19 February, 2021: India crossed a landmark milestone - more than 1 crore vaccine doses administered against COVID-19. It took India 34 days to achieve the landmark feat, the second fastest in the world.

1 March, 2021: Commencement of the next phase of COVID-19 vaccination for those who were over 60 years of age and people aged 45 and above with specified comorbidities. The Prime Minister also took his first dose of the COVID-19 vaccine at AIIMS New Delhi. In a tweet, he said, “Today, my first dose of the COVID-19 vaccine at AIIMS. Remarkable how our doctors and scientists have worked in such a short time to strengthen the fight against COVID-19. I appeal to all those who are eligible to take the vaccine, together, let us make India COVID-19 free!”

10 April, 2021: India becomes the first country in the world to administer 100 million (10 crore) doses of COVID-19 vaccine. India achieved the feat in 65 days.

15 April, 2021: Russia’s Sputnik V approved for emergency use in India. Government authorities bought the Sputnik V vaccines with emergency approval of WHO-trademarked vaccines.

30 April, 2021: Drone use permission granted to ICAR for study of Vaccine delivery using drones and conditional exemption to the Government of Telangana for conducting experimental Bayonet Visual Line of Sight (BVLOS) drone flights for delivery of vaccines.

13 May, 2021: The gap between two doses of Covishield Vaccine extended from 8-12 weeks to 12-16 weeks based on recommendation of COVID-19 Working Group chaired by Dr. M. K. Arora. Based on the available real-life evidences, particularly from the UK, the COVID-19 Working Group agreed for increasing the dosing interval to 12-16 weeks between two doses of Covishield vaccine.

13 August, 2021: First nasal vaccine developed by Bharat Biotech supported by Department of Biotechnology, Biotechnology Industry Research Assistance Council (DBT-BIARC) gets nod of regulator for Phase 2 Trial. Bharat Biotech’s intranasal vaccine was the first nasal vaccine that received the regulatory approval for Phase 2 trials. BBV152 is an intranasal replication-deficient chimpanzee adenovirus SARS-CoV-2 vectored vaccine. BBV152 is licensed technology from Washington University in St. Louis, USA.

20 August, 2021: Zydas Cadilla received approval for Emergency Use Authorization (EUA) from the DCGI for ZyCoV-D, the world’s first and India’s indigenously developed DNA-based vaccine for COVID-19 to be administered in humans including children 12 years and above. Developed in partnership with the Department of Biotechnology, Government of India under the Mission COVакс and implemented by DBT-BIARC, ZyCoV-D has been supported under COVID-19 Research Grant from through National Biopharma Mission for Preclinical studies, Phase I and Phase II Clinical Trials and under the Mission COVакс for Phase III Clinical Trials.

1 September, 2021: India’s cumulative COVID-19 vaccination Coverage exceeds 76.96 crore shots.

17 September, 2021: Highest ever vaccination figure of 2.5 crore doses administered in a single day making India’s cumulative COVID-19 Vaccination Coverage cross the 76.96 crore mark.

4 October, 2021: Dr. Manmohan Mandaviya, Union Minister for Health and Family Welfare launched ICAR’s Drone Response and Outreach in North East (i-Drones). This is a delivery model to make sure that life-saving vaccines reach everyone. First time in South Asia, a “Make in India” drone used to transport COVID-19 vaccines over an aerial distance of 10 kms in 12-15 mins.

15 October, 2021: Himachal Pradesh’s Kinnaur becomes the first fully vaccinated district in the country.

21 October, 2021: 100 crore mark reached.

The Public Accounts Committee (PAC) is celebrating its centenary this year. The celebrations would be held in New Delhi on December 4 and 5.

Role of Comptroller & Auditor General

The PAC has been established to scrutinize public expenditure and to ascertain if due diligence has been exercised in providing such expenditure. The Public Accounts Committee is guided by the Comptroller and Auditor General, who is regarded as the most able and wise guide of the Committee. Article 151 of the Constitution requires the Comptroller and Auditor General of India to submit its report on the accounts of the Union and State governments to the President or Governor as the case may be, and only Parliament has the power to replace the Comptroller and Auditor General, and the Auditor General has to render it to the Parliament or State Legislature. The Audit Reports, Finance Accounts and Appropriation accounts after they are presented to the Parliament or State Legislature stand referred to the Public Accounts Committee for scrutiny. The Committee is required to take cognizance with the reports of the CAG. The PAC has, however, inherent powers for criticism of the nation's finances. So its mandate is broad and comprehensive; of course it should not exceed the ambit of the member Parliamentary Committees.

The Committee, civil services, on some occasions in the past initiated inquiries into various irregularities which were made public even though formal Audit reports of the CAG may not be made public. The PAC has the power on the House on the subject and it is within the power of the PAC to initiate such inquiries on its own. Although the Committee is not concerned with questions of policy of the government, if the Committee comes across a situation that a particular policy is not yielding the desired results or is causing a loss, it is open to the Committee to report to the House that a change in the policy is called for.

Since 1952-53, the Committee has been examining the revenue receipts of the Government of India. If any money has been spent by the Government on any service during the financial year in excess of the amount granted by the Parliament, the PAC has no power to call for an audit report. However, the Committee examines with reference to the facts of each case the circumstances leading to such an excess and presents a report to the House. In recent years, the activities of the Committee have been increased manifold, particularly with regard to public welfare measures resulting in huge investment. More over due to technological advancement, the economy has become more complex. All these developments have led to the calling of the PAC by the government, the Parliament and the Public Accounts Committee.

Effectiveness

The recommendations of the Committee have far reaching effect in putting financial discipline and accountability of public resources. The recommendations of the PAC are accepted by the government is watched anxiously by the Committee through the Action Taken Report. Hence the Committee is held in high esteem and most of its recommendations are accepted by the government and implemented.

Institute for Stem Cell Science and Regenerative Medicine (inStem), an Autonomous Institution of the University of Medical Sciences and Technology, Government of India, was established in 2008 and located in the GKVK Campus, Bengaluru. The Centre for Stem Cell Research (CSCR) is the Global translational unit of inStem. It is a partnership with the National Centre for Biological Sciences (NCBS) and the Centre for Cellular and Molecular Biology (CCMB) which together comprise the Bangalore Life Science Cluster. inStem's international collaborations for specific projects of joint interest. Through these partnerships, the institute has established a strong research foundation with state-of-the-art facilities to attract researchers to its stem cells and regenerative medicine research programs.

The Department of Biotechnology, Government of India, invites applications from eminent scientists having proven scientific record in life or medical sciences with application to disease (not limited to Stem Cell Biology), and possessing recent research excellence in leadership and administrative abilities for the position of Director on December 4 and 5.

Eligibility Criteria

1. Ph.D/MD/MS in any life science discipline
2. Minimum 15 years experience in the area of specialization.
3. Excellent track record of research accomplishments as evidenced by excellent scientific publications, patents and awards.

Desirable

1. Experience in successfully running large programme, centre, institute.
2. Experience of guiding research activities in the area of specialization.

Last date for receipt of applications/ nominations in Department of Biotechnology is 30 days from the date of publication of this advertisement in the Employment News for local candidates and 45 days for the candidates residing abroad. Applications for appointment in inStem, Bangalore, a unit of inStem, shall be accepted at the Institute for Stem Cell Science and Regenerative Medicine (inStem), GMR Metro City, Mysuru Road, Bengaluru 560 008, Karnataka, India.

Employment News 6 - 12 November 2021

Continued from page 1

CAREERS IN OPHTHALMOLOGY ...

... are ophthalmologists. If you already have a medical eye condition - such as glaucoma, macular degeneration or cataract - it is important to seek care from one on ophthalmic care profession who is highly trained and skilled in monitoring and treating your condition. In many cases, this may mean that medical or surgical eye care by a specially trained ophthalmologist is required.

HOW TO BECOME AN OPHTHALMOLOGIST?

Aspirants who wish to specialize in Ophthalmology will first have to complete an Undergraduate course in BSc (Bachelor of Science in Medicine and Bachelor of Surgery), followed by a postgraduate degree in Ophthalmology like MD (Doctor of Medicine), and MS (Master of Surgery), depending on what they would like to build a career in.

For MBBS/UG-level:
Aspiring candidates must have passed their 12th Board examination with a minimum aggregate of 50%. The core subjects in the said examination must be Physics, Chemistry, and Biology.

For MS/MDS/other PG courses in Ophthalmology:
Aspiring candidates must possess an MBBS degree. Also, they must have completed their entrance examinations and procure a good score in the same.

Courses available in Ophthalmology are:
- Diploma of National Board of Examination (DNB) Ophthalmology (3 Years)
- Diploma of National Board - 2 years Postdoctoral Vitrine fellowship
- Fellowship in (General Ophthalmology, Cornea, Uvea, Cataract, Glaucoma and Vein Retinal - Session 5 and Post-5 Pathology & Fl. D. Programmes in Ophthalmology.
- Biochemistry & Microbiology

After acquiring the MBBS degree, students can opt for a postgraduate course in Ophthalmology, typically in either the Master of Surgery / Doctor of Medicine domain. Usually, these courses have some common curriculum which is aimed at equipping the student with knowledge and skills such as:
- Basic knowledge of the human body structure and functions related to the visual system, along with factors which may disrupt normal formation of these mechanisms
- Ability to handle day-to-day ophthalmology problems independently with full recognition of the limitations of one’s clinical knowledge
- Understanding of environmental effects on health and familiarity with the ophthalmology of common diseases in the ophthalmology field.
- Advanced and specialized knowledge and preventive methods with curative and rehabilitation measures in disease treatment
- Familiarity with all under-recognized and neglected eye problems and related issues occurring in rural areas where facilities are limited
- Familiarity with current developments and research topics in the field

WHAT DOES AN OPHTHALMOLOGIST DO?

Description:
The responsibilities of an ophthalmologist include diagnosing and treating all eye conditions. There are several ophthalmologists who are involved in the diagnosis of eye conditions and diseases, and increasing their own knowledge of them.

2. Developing and maintaining eye care services

- Performing corrective surgery, such as repairing injuries, cataracts, and removing glaucoma
- Performing advanced surgical procedures, such as keyhole or laser surgery
- Diagnosing and treating eye diseases and injuries
- Managing emergency care, outpatient care, and continuing care
- Treating medical disorders that affect the vision through a holistic approach.

3. Performing procedures and maintaining health

There are various kinds of ophthalmologists who are responsible to perform different roles in the hospital. They are primarily responsible for the diagnosis and treatment of patients' eye diseases and injuries.

4. Managing medical conditions and maintaining patient health

Ophthalmologists can be divided into subspecialties based on their areas of expertise. Common ones include:
- Cornea, Retina, Neuro-Ophthalmology
- Paediatrics, Uveitis, Ocular Immunology
- Cataract, Ocular Immune.

There are also subspecialties available. Aside from these specialties, ophthalmologists can be found undertaking a variety of roles, as defined by the organisation with which they work.

The authors have highlighted the roles and responsibilities of an ophthalmologist, a professional who is highly trained and skilled in monitoring and treating eye conditions. They emphasize the importance of eye care and the need for specialized training in the field.

WHAT ARE THE SKILLS REQUIRED TO BECOME AN OPHTHALMOLOGIST?

The role of an ophthalmologist requires extensive training and expertise. A postgraduate degree is only one of many skills necessary. For specialists in surgery, practice, and patient care, the knowledge they acquire in medical school, having a broad base of knowledge is necessary. Some of the other essential skills and knowledge required:
- Expert working knowledge of the diseases, functions, and anatomy of the eye
- Strong physical and mental skills and efficient medical knowledge
- Good administrative and managerial skills
- Good hand-eye coordination
- Strong organizational, communication, and decision-making skills.

CAREER OPPORTUNITIES

Opportunities are available in various fields, including hospitals, clinics, research institutions, government organizations, and pharmaceutical companies. The demand for eye care professionals is expected to increase in the next years as people become more reliant on technology and visual media, making it a profitable career.

Indo-Tibetan Border Police Force (ITBP) proposes to engage Specialists Medical Officers on various locations of Greater Noida, Ghaziabad & Noida (purely on contract basis) as per the terms & conditions mentioned below and details stated at Annexure-A.

The terms and conditions for the said posts are given as under:-

1. Remuneration: The consolidated remuneration to be paid to the contractual appoinntee is as under:-
   - Specialist - Rs. 60,000.00 p.m.
   This consolidated amount shall remain fixed for the whole tenure of contract which is limited to three years.

2. Age: All doctors appointed will not continue on the post once his/her reached 70 years of age.

3. The contractual employment will be for a period of three years only till regular incumbent joins whichever is earlier or till he/she reaches 70 years of age. However, the initial contractual appointment will be for 3 years and may be extended by the ITBP for further 2 years on year to year basis subject to the maximum age limit of 70 years. The services of the appoinntee are also terminable before expiry of the contractual period by either side after giving one month notice or salary in lieu thereof. The selection is purely contractual in nature and does not carry any right for regularisation or permanent absorption.

4. Leave: The leave entitlement of the appoinntee shall be governed as per DO/FR/ D.O. No. 20/16/94/Estt (L) dated 12th April 1985, as amended from time to time.

5. No TA/DA is admissible to attend the interview.

6. Application and all the relevant documents are to be submitted directly to the concerned office address, and not to the recruiting authority.

7. Walk-in-Interview will be held on 18th & 18th November 2021 at 0900 hrs in the office of The Inspector General (Medical), Referral Hospital, ITBP, CSSF Camp, Vrindavan, Greater Noida, Distt-Gautam Budh Nagar, (UP), PIN-201308 along with original and photocopies of all relevant documents i.e. Graduation/Post Graduate & Graduate Degree, age proof, internship completion certificate and experience certificate etc. and application in plain paper superscribing the name of the post applied for this minimum three colors for pieces of paper in order of preference and five passport size recent photographs.

8. The competent authority reserves the right for any amendment, cancellation and change in the advertisement in whole or part thereof without assigning any reason.

9. Educational/professional qualifications for the posts are as under:-
   - For Specialistes: (a) A recognised medical qualification included in the first or Second Schedule or Part II of the Third Schedule (other than that licenciate qualifications) to the Indian Medical Council Act, 1956.
   - Specialists: A minimum of 15 years experience for specialist and 10 years experience for diploma holder in the concerned specialty after clearing the Post Graduation/Diploma or equivalent.

10. Medical Examination: Candidates will be medically examined by a Board of Medical Officers detailed for the purpose. Appointment will be subject to medical fitness.

11. The candidates may also visit website of ITBP Police i.e. http://www.itbpolice.nic.in and https://www.itbp.gov.in. The candidates should avail all the information cuid before appearing in the walk-in-interview.

(Dr. H.B. Mohanty)
IG(Director (Medical)) ITBP

Sainik School Amethi
CORRIGENDUM

1. Reference is made to para 1(b) of recruitment notice published on 30 Oct, 2021.
2. The number of post for the post of General Employee Female (Contractual) should be considered as 02 instead of 01. Rest no change.

(Dr. H.B. Mohanty)
IG(Director (Medical)) ITBP

**Police Forces:**

The number of women Police Personnel has almost doubled in the last seven years. Today, all the daughters of the country are participating in the biggest rallies with full force and zeal. For example, many daughters are currently undergoing one of the most difficult training programs of the Indian Police. They are being trained in different aspects of law enforcement, which is an important step towards creating a more inclusive and gender-sensitive society.

**Defence Forces:**

In the last 20 years, India has produced many women officers and women soldiers. Women have been given the same opportunities as their male counterparts in the armed forces. Women in the armed forces have played an important role in various missions and operations.

**Social Structures:**

India has a unique social structure, where women are not only the caregivers of the family but also play an active role in the economic and political life of the country. The participation of women in various spheres of life has increased significantly in recent years.

**Healthcare:**

India has made significant strides in healthcare, especially in the last 20 years. The National Health Mission has brought healthcare closer to the people. The Government has taken several initiatives to improve healthcare facilities and services.

**Economy:**

India has made significant progress in the last 20 years, especially in the fields of technology, infrastructure, and manufacturing. The Government has taken several initiatives to boost the economy, including the Make in India programme.

**Environment:**

India has also made significant progress in environmental protection. The Government has taken several initiatives to combat climate change and pollution.

**Education:**

India has made significant progress in education, with a significant increase in the number of girls in school and the literacy rate. The Government has taken several initiatives to improve education and ensure that every child has access to quality education.

**Cultural Identity:**

India has a rich cultural heritage, and the Government has taken several initiatives to promote and preserve this cultural identity.

China clarifies new law will not change its position on border issues

China has clarified that the new border law will not change its position on border-related issues. Beijing’s reiteration comes after India’s Ministry of External Affairs expressed concerns about the legislation in view of a disputed military standoff between India and China along the Line of Actual Control (LAC) in eastern Ladakh.

Shaktikanta Das reappointed as RBI Governor for three more years

India successfully test fires surface to surface ballistic missile Agni-V

India successfully test fires surface to surface ballistic missile Agni-V. Agni-V is a long-range missile with a range of about 3,500 kilometers. It uses a three-stage solid-fueled engine. The successful test launch is in line with India's defense modernization efforts.

India, ASEAN call for freedom of navigation and overflight in South China Sea

Prime Minister Narendra Modi and ten ASEAN countries have reaffirmed the importance of maintaining and promoting peace, stability, and security in the South China Sea and ensuring freedom of navigation and overflight. An official statement issued at the end of the 10th India-ASEAN Summit summit said that both sides noted the importance of promoting a rules-based order in the region including through upholding adherence to international law, especially the United Nations Convention on the Law of the Sea (UNCLOS).

Four-year Integrated Teacher Education Program launched

The Ministry of Education has launched the four-year integrated teacher education programme (ITEP). It will be a holistic Bachelor's Degree programme for B.Ed., B.Sc.Ed., and B.Com.Ed. as mandated by the National Education Policy (NEP)-2020. As per the NEP 2020, teacher engagement from the year 2030 onwards will be only through ITEP. It will be offered in pilot mode initially in about 50 selected multi-district institutions across the country.

AIB, ADB to co-finance USD 2 billion loan for India's fight against COVID-19

As India crossed the milestone of administering one billion doses of COVAC-19 vaccines, the government has signed a USD 2 billion loan agreement with the Asian Development Bank (ADB) and the World Bank Group to help India tackle COVID-19. The ADB-funded project will primarily focus on strengthening the health care system, including vaccination and vaccine distribution.
